Condition 3 - Material schedule is considered acceptable - once brick has been identified then please submit that for further approval.

Condition no. 4 (Acoustic Insulation) - The submitted information is considered acceptable to discharge the first element of the condition. It should be noted that this condition can only be fully discharged once the verification report has been submitted and approved. Verification report submitted as part of the supportive information section.

Discharge of Conditions - Please provide a full description and/or list of the materials/details that are being submitted for approval

Previous Answers:

Verification Report to discharge the final part of Condition 4 Acoustic to the front windows/facade

Updated Answers:

Remaining part of Condition 3 - The material schedule item 4 stated the feature brick was to the rear stores, balcony dividing wall and the sides of the 1st floor terrace areas. Due to the lack of bricklayers at the time the contractor was ready for them, a decision was taken to render these areas rather than use brick, render was to match other proposed rendered elements at the rear and therefore this feature brick was not required. See attached photos of the relevant areas submitted in the supportive information section.

Remaining part of Condition 4 - Verification Report to discharge the final part of Condition 4 Acoustic to the front windows/façade
