To Whom it may concern re the proposed erection of a Telecommunication mast at Fog Lane / Cranmer Rd junction Didsbury ,

We as the owners of 40 Fog Lane (for the past 22years) strongly oppose the planned build of a 15 meter Telecommunication Tower at the proposed location.

As a residential area including many Elderly residents and families and young Children and a School / Nursery near by we strongly object to the plans.

This location is situated 1/2 mile away from the surveyors ideal area and right at the edge of the coverage gap. Surely there are other areas such as in a commercial location , or by a Tram line , bus stops such as by Aldi , Slug and Lettuce .

It therefore seems bizarre and totally inappropriate to propose to build it in a residential area that isn't deemed the most appropriate in terms of coverage.

It is our understanding that Manchester City Council are obliged to consider and examine commercial locations , locations that are less residential and they have failed to do this .

We do feel that the council are seeing this area as an easy target and hoping for minimal opposition.

To clarify again , We strongly object to the plan .
