Address: Not Available

Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I strongly object to this new planning proposal of 72 units of new residential development.

72 is a ridiculous number

Our local area is already extremely populated and the traffic especially in the morning is crazy , with hundreds and hundreds of new residents in the small site will not only increase the traffic, pollution, crimes and rubbish in the local area but will also make it not very nice place to live, there is already many many new developments in town city centre And Manchester has now lost that community feel and with this new development especially down my road, Manchester Victoria park will not feel like home any more, The traffic on daisy bank road getting into Plymouth grove in the morning is already too much and this new development will increase this many many times over. Having lived in this neighbourhood all my life me and my family as well as many neighbours strongly object to this new development and would like to kindly request that a park is made instead so local residents can use to relax and exercise instead which will much more greatly benefit the local community. I would greatly appreciate if you could kindly consider the neighbours of the community point of view

Many Thanks
