Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The traffic at this junction during the rush hours is already congested and dangerous, mostly due to the parking and road sense of the children and the person picking them up from the many schools in the area. Being opposite a busy park is an added issue and coupled with the tram line close by, the new supermarket will exacerbate the problem and likely drive up accidents. It will also mean that road users will use smaller roads to cut through and avoid the junction, causing new safety issues.
