You don't often get email from gwyn@maelgwyn.me.uk. [Learn why this is important](#)

Re; 135908/TEL/2023

I wish to object to the above planning application.

- The proposed location for the mast is unsuitable in a low rise residential area.
- It will have a significant impact on the surrounding housing .
- Even the applicant states that the Fog Lane/Cranmer Rd site is a sub-optimal location.
- It's difficult to believe that there are no areas closer to their target area which would be better (or at least equally) suitable.
- It's also difficult to comprehend that other technical solutions more suited for high density/low rise residential areas does not exist.

Better technical solutions exist, and better locations exist.

Regards,

Maelgwyn Thomas
