Dear Mr Mitchell

I am writing to lodge an appeal against the decision to erect a telephone mast on Fog Lane on the following grounds:

- The proposed location is too far away from the surveyor's ideal area and thus will not improve mobile phone coverage to the extent desired;
- Placing the mast in other areas indicated by the surveyor would provide for superior coverage;
- Fog Lane is a residential area and other proposed locations for the mast have been ruled out on this basis. It is therefore inequitable and inconsistent to erect the mast on Fog Lane;
- Manchester City Council have failed in their duty to consider and examine commercial locations for the mast and as such their decision to place the mast on Fog Lane should be reviewed and reversed. Locations close to the Didsbury Village tram stop would be much more suitable and fall in the surveyor's ideal area.

Yours Faithfully

Anna Powell  
26 Fog Lane, M20 6AL
