Subject: Heaton Park Gate 9 - Alternative Gate Types

Good Morning Janine,

As regards the various types of gates around the Park, there are several quite different ones, the oldest of which would appear to be Gate 4. I know that there are different schools of thought in conservation circles regarding this sort of thing. Some would say you should maintain the different styles as it reflects the history of the site, rather than try to replicate an original gate in a different location, and in this particular case if we were to copy Gate 4 at Gate 9 it would indeed suggest that the opening was older than it actually is! Let me know what you think is the best way forward to obtain Listed Building Consent.
