Dear Adam,

Re: 135908/TEL/2023.....objection to this proposed telephone mast on Fog Lane

I have recently been informed of the plan to erect a 15m telephone mast on Fog Lane. I am aware that we already have such an installation at the Kingsway/ Fog Lane junction already. I object strongly to this new proposal for many reasons as stated here: 1. The proposed location is residential.

2. A commercial site can easily be found such as the Aldi car park or Slug and Lettuce pub.

3. I have been informed that the ideal site to improve mobile phone coverage for Didsbury is more than half a mile from this proposed site on Fog Lane therefore any other location would be better than this one.

I sincerely hope that these strong objections will be taken seriously.

I look forward to your reply,

Joyce Barclay
Fog Lane resident
