To,

Mr Adam Mitchell,

I object to the above as Cranmer Road/Fog Lane is a residential area and half a mile away from the surveyor's ideal site. There are commercial areas that can be used. Other roads have been rejected because they are residential areas. Our area is also residential with mature trees under TPO. We take part in Didsbury in Bloom annually. So many people use Fog Lane Park via Sussex Avenue.

We are proud of our area of Didsbury, the roads/avenues are well maintained. The mast and the clutter caused by the equipment cabinet may discourage people using the bus stop and the park.

Thank you,

Sincerely,

Sharda Geega.
