

102494/FO/2013/S2 - 179 School Lane, Didsbury M19 1GN

Condition 10 - Crime Prevention Plan

External Works

Any new external doors should be compliant with and certified to BS PAS 24, STS 201 or LPS 1175 SR2. It is crucial that the door ironmongery to any external escape-only doors is permitted under the security certification of the product. All escape-only doors should be alarmed (audible upon opening) and designed without visible external ironmongery.

Any new windows should be compliant with and certified to BS PAS 24 or BS 7950, where possible. Any full height windows should take account of the requirements of the standards, as certified products can carry dimensional restrictions.

Alarm

An alarm should be installed to cover the unit, linked to contacts on all external doors and PIR detectors. It is highly recommended that any alarm system is monitored, with a response facility.
