You don't often get email from steedman7@hotmail.com. [Learn why this is important](#)

The proposed Fog Lane/Cranmer Road site for the mast is inappropriate, we strongly oppose it, because

- it will be very intrusive, too imposing due to its size,
- the equipment cabinet will clutter the pavement at that corner,
- such an imposing mast right on people's doorstep might well devalue their properties (The councillors and the planning officers should put themselves in us residents' shoes.)

Why not place the mast at the very southwestern corner of Fog Lane Park?

It is merely a few houses away from the proposed site, and is hardly likely to change the coverage for the intended area.

If it is true that Manchester City Council has failed to consult us local residents about the location for the mast, this is utterly disgraceful. We first heard about this mast on Saturday 4th February and were given only until Wednesday 8th February to register any objection. Such short notice is utterly appalling!

We sincerely hope that MCC will improve its democratic procedures!

Yours, appalled local residents
