Some people who received this message don't often get email from carmenherrero100@gmail.com. [Learn why this is important](#)

**Reference (Planning application): 135908/TEL/2023**

Dear Sir / Madam,

My name is Carmen Herrero and I live at 38 Fog Lane, Didsbury, M20 6AL.

I have received a letter indicating that there is a planning application for a 15 metres telecoms mast on the junction of Cranmer Road and Fog Lane, a few meters from my house.

I am writing **to object to the planning application**. Having looked at the proposal and reports, these are the reasons for the objection:

1. Manchester City Council has a **duty to place a mast in a location that has the least impact on residential households**.
2. Manchester City Council **has not investigated any other locations that are less residential** and where a mast would have less of an impact on residential households (e.g. commercial locations elsewhere in Didsbury).
3. This location is not even close to the developer's ideal key location. The developer identified their key location as Catterick Road. However, Fog Lane/ Cranmer Road is **half a mile away from this location and the mast will not improve mobile phone coverage to the extent desired**.

4. We are at the **northernmost edge** of the coverage hole and we are **the most sub-optimal location**.

Please put the mast in any other location (in the coverage hole) and the mast will give far greater coverage. **Other locations have been discounted on the grounds that they are "residential". I hope the same principle applies to our area.**

Yours faithfully,

Dr Carmen Herrero
