Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The location of the planned supermarket is unsafe and unsuitable. It borders 3 secondary schools and a primary school where the increase in traffic will pose danger not only to increase road traffic incidents but also to air pollution to children playing in the schools, perusing sports and using the playgrounds. It will also cause disruption to the southern cemetery by increased traffic passing. The roads in the area are massively over congested already in this residential area, which is already served by a supermarket and numerous local shops with a choice of numerous supermarkets in adjacent suburbs. This will have a detrimental impact on health of residents and children in the areas due to increased traffic
