Dear Adam,

I write concerning the proposal that a 15 m telecoms mast be positioned on Fog Lane.

This is an utter ridiculous suggestion and I can't believe that anyone from the Council actually thought that us residents would not object to it. I live more or less directly opposite Cranmer Road and it would simply be a horrific eyesore right outside my house.

Apparently the developer identified the key location as Catterick Road but we are half a mile away from this and at the edge of the coverage hole. If the mast can be put in any other location in the coverage hole it will give far greater coverage.

I understand that other locations have been discounted as they were residential but for goodness sake the site you are proposing is fully residential. Not a student area or rented houses area but a fully functional residential area!

I also understand that Manchester City Council are obliged to consider commercial locations and I believe you have failed to do this. The site near Aldi or the Slug and Lettuce would be much more appropriate or the site facing the Botanist which is now up for sale. There are very little residential properties around there and the few that are are not directly facing this huge mast.

I object to this in the strongest possible terms and urge you to reconsider.

I look forward to hearing from you.

Yours sincerely,

Mrs. E. Grealy.
