Description of Proposed Works

Please describe the proposed works

Extension of the property to the right to create a downstairs dining room, WC and office and upstairs to facilitate a larger family bathroom, two double bedrooms and storage space. The extension to retain the property line as apposed to the previous submission being forward of the property line. Staying on the property line will allow the creation of a symmetrical design with a central entry door and equal sides to the left and right.

The small rear extension is to increase the space for a large kitchen and allow an upstairs en-suite for the master.

A transit route from the front to the rear of the property will remain and the materials used in the build will match the current property (bricks, hipped roof etc).

Plumbing will be redone fully throughout the property to allow for the additional bathrooms and drainage.
