Delegated officer report for planning application

Application no. 135519/FH/2022

Date registered valid: 29 November 2022

Proposal: Elevational alterations involving creation of a lightwell in association with conversion of basement to form ancillary living accommodation

Address: 27 Slade Grove, Manchester, M13 0QF

Ward(s): Longsight Ward

Applicant: Mr Muhammad Usman

Agent (if any): Mrs Dawn Winterbottom Plans Drawn

Case officer: Ian Jarvis
Tel: 0161 234 4079
Email: ian.jarvis@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 10 February 2023

Application details

Type of application: Full Householder Application

Development type: Householder

Date of site visit:

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

Listed building: Not applicable

Conservation area:

Tree Preservation Order:

The property that is the subject of this application is a brick built two-storey mid-terraced property in a predominantly residential area. There is a small garden area to the frontage, and a yard to the rear. There is a low brick wall with a pedestrian gate to the front, and, at the time of the site visit, there were some building materials stored in this area. There is no parking provision with the property with vehicles parking on street. The property is in use as single family dwellinghouse and a prior approval was previously granted, in October 2018 for a larger home extension for single storey rear extension with a rearward projection of 4.79m, maximum eaves height of 2.815m and total roof height of 3.605m (121433/PDE/2018).

It is now proposed to carry out some external alterations to the front of the building, comprising the creation of a lightwell, in association with the use of the basement as additional living accommodation. Originally it was proposed to create steps down to the basement, in the front garden area, with an associated balustrade, but these elements have been removed from the scheme. The proposed works now comprise of a lightwell only with a small (5cm) protruding element above ground level. The property would remain in use as a single family dwelling.

The site lies within the protected line for HS2.

Consultations & Notification Responses

Local residents - No comments received.

HS2 - No objections.

Issues

National Planning Policy Framework (July 2021) - Sets out the Government's Planning Policies for England and how these should be applied. It states that the purpose of the planning system is to contribute to the achievement of sustainable development. It states that achieving sustainable development means that the planning system has 3 overarching objectives:

An economic objective - to help build a strong, responsive and competitive economy, by ensuring that sufficient land, of the right types is available in the right places and at the right time to support growth, innovation and improved productivity; and by identifying and coordinating the provision of infrastructure;

A social objective - to support strong, vibrant and healthy communities, by ensuring that a sufficient number and range of homes can be provided to meet the needs of present and future generations; and by fostering well-designed, beautiful and safe places, with accessible services and open spaces that reflect current and future needs and support communities' health, social and cultural well-being; and

An environmental objective - to protect and enhance our natural, built and historic environment; including making effective use of land, improving biodiversity, using natural resources prudently, minimising waste and pollution, and mitigating and adapting to climate change including moving to a low carbon economy

It states that planning policies and decisions should ensure that developments:

a) will function well and add to the overall quality of the area, not just for the short term, but over the lifetime of the development;

b) are visibly attractive as a result of good architecture, layout and appropriate and effective landscaping;

c) are sympathetic to local character and history, including the surrounding built environment and landscape setting, while not preventing or discouraging appropriate innovation or change (such as increased densities);

d) establish or maintain a strong sense of place, using the arrangement of streets, spaces, building types and materials to create attractive, welcoming and distinctive places to live, work and visit;

e) optimise the potential of the site to accommodate and sustain an appropriate amount and mix of development (including green and other public space) and support local facilities and transport networks; and

f) create places that are safe, inclusive and accessible, and which promote health and well-being, with a high standard of amenity for existing and future users, and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience.

Section 12 'Achieving Well Designed Places' states that 'the creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process should achieve. Good design is a key aspect of sustainable development, creates better places in which to live and work and helps make development acceptable to

communities. Being clear about design expectations, and how these will be tested, is essential for achieving this. paragraph 127).

The Core Strategy Development Plan Document 2012 -2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012. It is the key document in Manchester's Local Development Framework. The Core Strategy replaces significant elements of the Unitary Development Plan (UDP) as the document that sets out the long term strategic planning policies for Manchester's future development. A number of UDP policies have been saved until replaced by further development plan documents to accompany the Core Strategy. Planning applications in Manchester must be decided in accordance with the Core Strategy, saved UDP policies and other Local Development Documents.

Policy SP1 identifies the City Council's Core Development Principles and states that development in all parts of the City should:-

Make a positive contribution to neighbourhoods of choice including:-

- Creating well designed places that enhance or create character
- Making a positive contribution to the health, safety and wellbeing of residents
- Considering the needs of all members of the community regardless of age, gender, disability, sexuality, religion, culture, ethnicity or income.
- Protect and enhance the built and natural environment

Minimise emissions, ensure efficient use of natural resources and reuse previously developed land wherever possible.

Improve access to jobs, services, education and open space by being located to reduce the need to travel and provide good access to sustainable transport provision.

Policy DM 1 states that all development should have regard to the following specific issues for which more detailed guidance may be given within a supplementary planning document:-

- Appropriate siting, layout, scale, form, massing, materials and detail.
- Impact on the surrounding areas in terms of the design, scale and appearance of the proposed development. Development should have regard to the character of the surrounding area.
- Effects on amenity, including privacy, light, noise, vibration, air quality and road safety and traffic generation. This could also include proposals which would be sensitive to existing environmental conditions, such as noise.
- Accessibility: buildings and neighbourhoods fully accessible to disabled people, access to new development by sustainable transport modes.
- Community safety and crime prevention.
- Design for health.
- Adequacy of internal accommodation and external amenity space.
- Refuse storage and collection.
- Vehicular access and car parking.
- Effects relating to biodiversity, landscape, archaeological or built heritage.
- Green Infrastructure including open space, both public and private.
- Flood risk and drainage.
- Existing or proposed hazardous installations.

Unitary Development Plan - The site is presently unallocated within the Manchester Unitary Development Plan.

Saved Policy DC1.1 states that in determining planning applications for extensions to residential properties, the Council will have regard to:

- a. The general character of the property;

- b. The effect upon the amenity of the neighbouring occupiers;
- c. The desirability of enabling people to adapt their houses in appropriate ways to meet changing household needs;
- d. The overall appearance of the proposal in the a street scene;
- e. The effect of the loss of any on-site car parking.

DC1.2 states that extensions to residential properties will be allowed subject to compliance with other relevant policies of the Plan and the following criteria:

- a. They are not excessively large or bulky (for example resulting in structures which are not subservient to original houses or project out too far in front of original buildings);
- b. They do not create undue loss of sunlight, daylight or privacy;
- c. They are not out of character with the style of development in the area or the surrounding scene by virtue of design, use of materials or construction details.

DC1.3 States that, notwithstanding the generality of the above policies, the council will not normally approve:

- a) rearward extensions greater than 3.65m (12ft) in length
- b) 2 storey extensions with a flat roof, particularly those which would be visible from the public highway
- c) 2 storey extensions to terraced properties which occupy the full width of the house
- d) flat roofed extensions to bungalows
- e) extensions which conflict with the councils guidelines on privacy distances (which are published as supplementary guidance).

Impact of works - Originally more extensive works were proposed, by way of steps down to the basement accommodation, which is proposed to be converted into additional living accommodation, with an associated balustrade. These proposed works covered a significant amount of the front garden area, and it was considered that they were out of character with surrounding properties. Consequently the scheme was amended and now comprises the creation of a lightwell only with access, to the new basement accommodation being taken internally. The proposed works have therefore been significantly reduced in scale and represent a minor excavation, in the front garden, so place remains for the storage of bins, which appears to be the common use, of these frontage garden areas, on this row. Also, they will not be easily visible, behind the existing front garden wall, and it is considered that they would have a minimal visual impact.

Residential amenity - Whilst some additional residential accommodation is facilitated by the proposal, the property remains in use as a single residential property and the proposal is unlikely to result in any significant changes in comings and goings at the property. Otherwise, the proposed development is a relatively small scale structure that would have a minimal impact upon the amenity of any neighbouring occupiers.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. In this case, negotiations were entered into, which resulted in a significant reduction in the scale of the proposed works..

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings:

Site location plan, stamped as received by the City Council, as Local Planning Authority, on 18 November 2022.

Drawings numbered SG27/02A, SG27/04A and SG/27/06A, stamped as received by the City Council, as Local Planning Authority, on 1 February 2023.

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies SP1 and DM1 of the Manchester Core Strategy.

3) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) (or any order revoking and re-enacting that Order with or without modification) no part of the development shall be used for any purpose other than the purpose(s) of Class C3(a) of the Schedule to the Town and Country Planning

(Use Classes) Order 1987 (as amended) (or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the exceptional circumstances of a proliferation of HMO's restricting housing choice and adversely affecting sustainability and in the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through provision of accommodation that is suitable for people living as families pursuant to policy 7.4 of the Guide to Development in Manchester: Supplementary Planning Document and Planning Guidance, the National Planning Policy Framework and policies SP1 and DM1 of the Manchester Core Strategy.
