I would like to lodge an appeal against the proposed site of a 15m telecoms mast on Fog Lane.

The reasons for my objection are:

- It is not close to the developer's ideal key location as it is half a mile away
- Fog Lane/Cranmer Road is at the absolute edge of the area so the mast will not improve mobile phone coverage to the extent desired
- It is being placed in a residential area when there are commercial areas available
- Other roads have been ruled out on the basis that they are residential

Have Manchester City Council considered and examined all possible commercial locations before choosing this residential site?

Regards

Graham Lambert
