Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am very concerned about the amount of traffic that this is predicted to generate and the safety to all the school children in that vicinity. There have been too many children injured in that area already. The increase in traffic just increases the danger to children. In addition to this the council has declared a climate emergency and will I hope consider every decision through that lens. We need to reduce the amount of traffic on our roads. A large percentage of our carbon comes from travel and transport. Manchester is horribly polluted. Any local store that is supposed to be for the local community does not require multiple parking spaces it needs only a few and then only for disabled and possibly electric cars. I strongly object to this planned development and hope Manchester will not grant permission. Our children need to be protected.
