Dear Sir

I wish to register my objection to the proposed telephone mast at the corner of Fog Lane and Cranmer Road. It seems to be a completely inappropriate place to site a phone mast. Other sites have been ruled out as they are residential roads - both Fog Lane and Cranmer Road are also residential. The mast would dwarf the houses and prove to be a distraction to drivers on Fog Lane which already has a problem with speeding drivers despite the road humps.

I would ask the council to reconsider and follow the recommendations of the surveyor whose preferred site is half a mile away. Surely a brownfield site or similar would be better.

Yours faithfully

Sarah Phelan
