Address: Not Available

## Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The site itself is very close to several schools and would attract a large amount of additional traffic. This would create significant risks to the children going to and from school, both in terms of being hit by the cars but also through air pollution. It is hard to think of a worse location given how many schools are nearby.

Nell Lane is a small road that already becomes congested around school drop off / pick up and at other times. Adding a supermarket with access from Nell Lane would make this much worse. This would cause congestion and inconvenience, but again and most important put children in danger of road traffic accidents and pollution.
