Comment Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: I'm very concerned about the increase in traffic, not only of customers but associated deliveries and services in the immediate area. Congestion around school times with so many primary and secondary schools within a small area is already bad, and without further provision for walking and cycling the roads will become more dangerous for other users. Entrances to the park and crossings outside Chorlton High and the Mauldeth Road junction will need improvements. Even with these measures in place, the air quality will deteriorate and there will be effects on local wildlife with increased lighting and noise. While I support affordable food for households in this part of Chorlton/Barlow Moor, I have concerns over the significant negative impact this store will have on the local area.
