

Impossible Manchester 'New' Terrace Operating Schedule

Currently the open-air rear Terrace at Impossible Manchester operates as per the licensing condition on the Premises License;

- “Outside Drinking Area not to be used after 2400”

FAC251 LTD, premises license holder for Impossible Manchester would **NOT** be looking to extend these operating hours with the new ‘Covered’ terrace and as such the operating hours for the new terrace would be as follows;

- **Monday to Sunday 9am – 12am (Midnight)**

The terrace would be clear of customers by Midnight and as this area is to be used for seated dining, we would take last booking and orders in this area by 10pm on any respective day allowing a 2 hour ‘eat up, drink up’ time allocation to ensure that customers are cleared from this area by Midnight.

When customers have finished eating and drinking in this area, they will exit the venue using the front bar entrance as per the *dispersal policy*. (*Staggered Egress*) (***Ensuring that capacity limits within the main bar are not breached***)

Impossible Manchester 'New' Terrace Noise Management

FAC251 LTD, is **NOT** looking to vary the current premises license conditions in place at Impossible Manchester. As such the new infrastructure being implemented on site to cover the open-air terrace will help dampen any noise breakout levels that are already occurring at the venue. Impossible already trades with a noise management plan in place to ensure we are operating a “good neighbour policy” and with the build of a ‘new’ covered terrace area, this will help management adhere to that policy by ensuring the noise breakout levels are further minimised as the proposed built will act as an additional level of sound buffering.

The new terrace area will be operated with a **NO SMOKING** policy, this amendment will appear in the noise management plan for the venue as currently the terrace is outdoor and as such smoking is permitted. Customers who wish to smoke when the new terrace is in place, will be directed to the front of the building (Peter Street) where a new “Designated Smoking Area” will be in situ to allow customers to smoke.

Policing this new policy will be managed by venue staff and security and anyone seen in breach of this new policy will be ejected from the premises.
