

General Notes:
All rights reserved.
All drawings and written material appearing here, constitute original and unpublished work of the Architect/Technologist and may not be duplicated, used or disclosed without written consent of the Architect/Technologist.
The intention of the drawing and specification is not to detail every aspect and or item of material to be used. It is expected that the contractor and or sub-contractor shall have the necessary experience and knowledge to undertake the works as depicted in this drawing. Where discrepancies occur between the drawing and specification this shall be brought to the attention of the client.
The contract is to check and verify all building and site dimensions, levels and sewer invert levels at connection points before work commences. This drawing must be read with and checked against any structural or specialist drawings provided. The contractor is to comply in all respects with the current building regulations whether or not specifically stated in these drawings. The client is to be scaled from this drawing, all dimensions to be checked before work commences and any discrepancy to be reported. Before work commences ensure all planning conditions and Building Regulation conditions have been reviewed to the satisfaction of the Local Authority. All works to comply with the workmanship clauses in BS8000 series and to be in full compliance with the Building Regulations. Contractor is to notify Building Control at the appropriate stages in construction - necessary for them to determinethe works statutory compliance.
