Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This proposal is absolutely ridiculous and should not have even got this far. There are clearly several reasons why this should not ahead, the main being CHILD SAFETY, or more to the point, the COMPLETE DISREGARD FOR CHILD SAFETY.

Other very obvious points:

The considerable increase in traffic at an already busy crossroads and surrounding area. It is expected there will be as much as an extra 200 journeys in peak hours compared to current.

The wholly inappropriate nature of the site given the immediate vicinity of 4 schools with 3600 pupils and the close proximity of other schools - a locality with 6000 - 7000 pupils.

The lack of demonstration of infrastructure or control in managing the attraction of such a site to young people and the potential challenges in the middle of a large educational cluster.

The risk to safety of school children in an area similar in nature to an educational campus in a vicinity that is already a safety and welfare challenge for pedestrians.

The design of the site is inappropriate given its vehicular access on Nell Lane and also features that are not in keeping with Hough End Hall.

The missing information in the application, unrealistic assumptions and failure to properly consider

impacts on the neighbourhood.

It is absolutely preposterous that one could even imagine a supermarket in this already cramped space - both pedestrian and traffic wise. Ludicrous
