Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The proposed development will have a severe impact on an already congested part of Chorlton.

There are four schools within a few hundred meter radius of the proposed site (Chorlton High, Chorlton High South, Loreto and Chorlton Park Primary) and this does not seem to have been considered as part of the transport assessment. Emission levels from vehicles during the time when children are walking to and from school are already dangerously high, and adding a store with 80+ car parking spaces will only make this worse.

There are much more suitable sites available in the centre of Chorlton which would benefit other commercial units whilst also encouraging public transport access. This site will only encourage more car journeys and lead to worse air quality in a space used by thousands of children every day. Please
