

Technoshelter Cycle Compound

BXMW/TECH

An extremely versatile compound that incorporates lockable cycle areas, lockable bin store and motorcycle parking area.

This compound is constructed of a robust galvanized and powder coated framework with powder coated perforated sheet cladding to back and end panels and high security locking doors utilising cylinder locks.

The roof is constructed from gently curved, pre-finished steel, Trapezoidal Roof Cladding. Cycles are stored on either side of a Sheffield stand

Optional (£POA):

- Extra modules available at 1500mm wide
- Polyester powder coating available
- Bespoke versions available
- Various cycle racks and stands
- A variety of alternative cladding
- Alternative locking mechanisms
- In-house CAD facilities to assist in design and manufacture
- Installation service available

Construction:

- This compound is constructed of a robust galvanized and powder coated framework with powder coated perforated sheet cladding to back and end panels and high security locking doors utilising cylinder locks
- The roof is constructed from gently curved, pre-finished steel, Trapezoidal Roof Cladding
- Cycles are stored on either side of a Sheffield stand
- Can contribute towards gaining ENE8 credits when used in the appropriate situation, under the Code for Sustainable Homes.
