Comment Reasons:

Comment: My main concern about this development is the additional traffic it will create particularly along Nell Lane. This relatively narrow stretch of road can become very busy as children go and from to Chorlton High School. Already at these times there are large amounts of traffic, children crossing roads, sometimes distractedly playing on the pavements and stepping into the road unaware of traffic. Additional traffic will make this situation much worse.

I am also concerned about the emissions it will cause close to Chorlton Park which is a much used and loved piece of green space in Chorlton.

The junction at Mauldeth Road South is quite a complicated one with the tram line running there and is likely to affect the flow of traffic and potentially increase the congestion and hence emissions.
