Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

Important - Please note that:

- This application is specifically for a 'larger' single storey rear extension to a house, and the questions below are particular to determining the eligibility of proposals for this extension type.
- Other kinds of home extensions do not use this 'prior approval' process and should not be applied for using this type of application.
- There are additional permitted development conditions that apply to all home extensions which are not covered in the questions below, [they can be reviewed in our common projects section](#). If your proposals do not meet these conditions, it is advisable not to continue with this application.

Please indicate the type of dwellinghouse you are proposing to extend

- ☐ Detached
- ☒ Other

Will the extension be:

- a single storey;
- no more than 4 metres in height (measured externally from the natural ground level); and
- extend beyond the rear wall of the original dwellinghouse (measured externally) by over 3 but no more than 6 metres.

Note that where the proposed extension will be joined to an existing extension, the measurement must represent the total enlargement (i.e. both the existing and proposed extensions) to the original dwellinghouse.

- ☒ Yes
- ☐ No

Is the dwellinghouse to be extended within any of the following:

- a conservation area;
- an area of outstanding natural beauty;
- an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- the Broads;
- a National Park;
- a World Heritage Site;
- a site of special scientific interest;

- ☐ Yes
- ☒ No

Description of Proposed Works

Please describe the proposed single-storey rear extension

Construction of a new single storey extension to the existing property to provide additional living space.

The existing house is a 1940s built semi detached property typical of this area of Manchester.

The proposed rear extension is to extend 5.73m beyond the line of the original house. No windows are proposed to the side elevation of the extension. The proposed extension is attached to the original house. The proposed extension does not extend past the side of the original house so is not visible from the street.

The extension is to be constructed with bricks to match the existing house. The extension is to be pitched and finished with tiles to match the original house. Two roof lights are proposed over the dining area.

A full set of drawings are provided along with this form outlining the proposed extension.

Measurements

Please provide the measurements as detailed below.

Where the proposed extension will be joined to an existing extension, the measurements provided must be in respect to the total enlargement (i.e. both the existing and proposed extensions) to the original dwellinghouse.

How far will the extension extend beyond the rear wall of the original dwellinghouse (in metres, measured externally)

5.73	metres
------	--------

What will be the maximum height of the extension (in metres, measured externally from the natural ground level)

3.85	metres
------	--------

What will be the height at the eaves of the extension (in metres, measured externally from the natural ground level)

3.00	metres
------	--------

Adjoining premises

Please provide the full addresses of all adjoining premises to the house you are proposing to extend. This should include any premises to the side/front/rear, even if they are not physically 'attached'
