Details of the pre-application advice received

Dear Phil,

The principle of the new addition is acceptable in respect to the impact on the Grade II registered Heaton Park, and bearing in mind the benefits that the scheme would deliver.

However, the submitted information is not sufficient to fully assess the impact of the development on this historic park and garden.

I am concerned that the plans show a full rendered new extension – which would stand in contrast to the part rendered, part brick finished existing 20th century buildings. No details on the eaves, roof finishes and rainwater goods have been submitted either – which should match the existing building (Rosemary clay tiles, iron rainwater goods and moulded projecting timber eaves).

Full details of the external design and appearance of the proposed new extension, including brick, render, rainwater goods and tile specs/samples, and detailed cross sections (showing eaves and roof junctions) should be submitted as part of the PP.

The design and appearance should be carefully considered to offer a sympathetic and attractive new addition to the Grade II registered Heaton Park, to preserve or enhance the designated park & garden.

Regards.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
