

Important – Planning permission & notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

Part 1 – Particulars of the application/development

Proposal: Erection of three storey building to provide 24 apartments following demolition of existing buildings including creation of a new vehicular access from Francis Road, parking provision, landscaping and associated works

Location: Pellowe House, Francis Road, Manchester, M20 9XP

Date of application: 4 August 2022

Application number: 134603/FO/2022

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Approved** in accordance with the application and plans submitted subject to the condition(s) listed below (if any).

Article 35 Declaration

The application has been considered in a positive and proactive manner as required by The Town and Country Planning (Development Management Procedure) (England) Order 2015 and any problems and/or issues arising in relation to dealing with the application have been communicated to the applicant, in this instance amended proposals were submitted that reduces the height of an element of the building.

Condition(s) attached to this decision

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

YD2_FR_LP001 REV B 'LANDSCAPING PLAN'; YD2_FR_RP001 REV B 'LANDSCAPING DESIGN REPORT'; reference 80/615/R2-7 'ARBORICULTURAL IMPACT ASSESSMENT and Method Statement' prepared by E3P; reference 221121/SK22154/TS01(-05)'TRANSPORT STATEMENT' prepared by SK; C-26721-HYD-XX-XX-RP-C-0500 P01 'DRAINAGE STRATEGY'; C-26721-HYD-XX-XX-DR-C-0500 P01 'PROPOSED DRAINAGE LAYOUT'; C-26721-HYD-XX-XX-DR-C-0510 P01 'OVERLAND EXCEEDANCE FLOOD ROUTES'; All as received by the City Council as local planning authority on the 28th November 2022

A20045-SASA-Z1-XX-DR-A-20202 P04 'PROPOSED SITE ELEVATIONS'; Design and Access Statement A20-045 Rev C; Affordable Housing Statement prepared by Southway Housing Trust dated 21st November 2022; DAYLIGHT & SUNLIGHT AMENITY IMPACT ASSESSMENT reference 1079A/MPS/DMH - Final prepared by Proximity; All as received by the City Council as local planning authority on the 22nd November 2022

A20045-SASA-Z0-Z0-DR-A-90100 REV P05 'PROPOSED SITE PLAN' ; A20045-SASA-Z1-00-DR-A-20101 REV P05 'GROUND FLOOR PLAN'; 2A2045-SASA-Z1-01-DR-A-20102 REV P04 'FIRST FLOOR PLAN'; A20045-SASA-Z1-02-DR-A-20103 REV P04 'SECOND FLOOR PLAN'; A20045-SASA-Z1-R1-DR-A-20104 REV P04 'ROOF PLAN'; A20045-SASA-Z1-XX-DR-A-20201 REV P04 'ELEVATIONS'; A20045-SASA-Z1-XX-DR-A-20402 P02 'PROPOSED SITE SECTIONS'; A20045-SASA-Z1-00-DR-A-20110 P02 PART M(4)-2 'GROUND FLOOR PLAN'; A20045-SASA-Z1-01-DR-A-20111 P02 'PART M(4)-2 FIRST FLOOR PLAN' ; All as received by the City Council as local planning authority on the 17th November 2022
Crime Impact Statement prepared by GMP Design for Security reference 2021/0465/CIS/01 Version D; Building Regulations Part L Volume 1 - SAP Revision R00 dated 21/07/2022 prepared by Seven; Noise Impact Assessment - REPORT REFERENCE NO. J003503-5119-TD-06 July 2022 prepared by PDA; Bat Survey Report Francis Road, Withington Reference: 80-615-R1-4 Date: May 2022 prepared by E3P all as received by the City Council as local planning authority on the 4th August 2022

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

3) Prior to the commencement of any demolition works on site a Demolition Management Plan shall be submitted to and approved in writing by the City Council as local planning authority. The demolition works shall be implemented in accordance with the agreed plan and where appropriate shall include:

- The hours of site working;
- Measures to control noise and vibration;
- Dust suppression measures;
- Details of the location and arrangements for contractor parking;
- The identification of the vehicular access points into the site;
- Identify measures to control dust and mud including on the surrounding public highway including: details of how the wheels of contractor's vehicles are to be cleaned during the construction period;
- The details of an emergency telephone contact number for the demolition / site contractor to be displayed in a publicly accessible location; and
- A community consultation plan.

Reason - In the interests of residential amenity, highway safety pursuant to policy DM1 of the Core Strategy.

4) Prior to the commencement of the development (excluding demolition works), a scheme for the provision of affordable housing on the site shall be submitted for approval in writing by the City Council, as Local Planning Authority. The scheme shall comprise:

- i. the type and tenure (such tenures being consistent with the definition of affordable housing in Annex 2 of the NPPF or any definition of affordable housing that replaces it) which shall consist of 100% of the dwelling houses;
- ii. confirmation that the affordable dwellings will be made available on affordable housing terms for both first and subsequent occupiers of the affordable housing dwellings (subject to such exclusions and exemptions as may be approved by the City Council); and
- iii. the eligibility criteria to be used for determining who may occupy the affordable housing dwellings (which shall not be required to include any local connection criteria in the case of shared ownership housing).
- iv. The approved affordable housing scheme shall be implemented as part of the development and thereafter observed in perpetuity subject to the exclusions and exemptions set out in the approved affordable housing scheme.

Reason - In order to provide affordable housing at the site and to deliver an identified housing need in accordance with policies H6 and H8 of the Manchester Core Strategy (2012) and the National Planning Policy Framework.

5) Prior to the commencement of the construction phase of development a Construction Management Plan shall be submitted to and approved in writing by the City Council as local planning authority. The development shall be implemented in accordance with the agreed plan and where appropriate shall include:

- The routing of construction traffic;
- The hours of site working;
- Measures to control noise and vibration;
- Dust suppression measures;
- Detail the vehicular activity associated with the construction including appropriate swept-path assessment;
- Details of the location and arrangements for contractor parking;
- The identification of the vehicular access points into the site;
- Identify measures to control dust and mud including on the surrounding public highway including: details of how the wheels of contractor's vehicles are to be cleaned during the construction period;
- The details of an emergency telephone contact number for the site contractor to be displayed in a publicly accessible location; and
- A Community consultation plan.

Reason - In the interests of residential amenity, highway safety pursuant to policy DM1 of the Core Strategy.

6) a) Prior to the commencement of the development (excluding demolition works), details of a Local Benefit Proposal, in order to demonstrate commitment to recruit local labour for the duration of the construction of the development, shall be submitted for approval in writing by the City Council, as Local Planning Authority. The approved document shall be implemented as part of the construction of the development.

In this condition a Local Benefit Proposal means a document which includes:

- i) the measures proposed to recruit local people including apprenticeships
- ii) mechanisms for the implementation and delivery of the Local Benefit Proposal
- iii) measures to monitor and review the effectiveness of the Local Benefit Proposal in achieving the objective of recruiting and supporting local labour objectives

(b) Within one month prior to construction work being completed, a detailed report which takes into account the information and outcomes about local labour recruitment pursuant to items (i) and (ii) above shall be submitted for approval in writing by the City Council as Local Planning Authority.

Reason - The applicant has demonstrated a commitment to recruiting local labour pursuant to policies SP1, EC1 and DM1 of the Manchester Core Strategy (2012).

7) a) Before the development hereby approved commences (excluding demolition works), a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).

In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.

The measures for investigating the site identified in the Site Investigation Proposal shall be carried out, before the development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.

b) When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority.

In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the development shall not be occupied until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local planning authority and the development shall be carried out in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Core Strategy.

8) a) Prior to the commencement of above ground works associated with the approved development (excluding demolition works) a scheme for acoustically insulating the proposed residential accommodation against noise from nearby roads shall be submitted to and approved in writing by the City Council as local planning authority.

The submitted scheme shall also assess the potential for overheating and the noise insulation scheme shall take this into account. The approved noise insulation and ventilation scheme shall be completed before any of the dwelling units are occupied.

b) Prior to first occupation of the residential units, a verification report shall be required to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved acoustic consultant's report. The report shall also undertake post completion testing to confirm that the internal noise criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the internal noise criteria.

Reason - To secure a reduction in noise from traffic or other sources in order to protect future residents from noise disturbance and to reduce the potential for overheating pursuant to policy DM1 of the Core Strategy and saved Unitary Development Plan policy DC26.

9) a) Externally mounted ancillary plant, equipment and servicing shall be selected and/or acoustically treated in accordance with a scheme designed so as to achieve a rating level of 5dB (LAeq) below the typical background (LA90) level at the nearest noise sensitive location. Prior to first occupation of the development hereby approved the scheme shall be submitted to and approved in writing by the City Council as local planning authority in order to secure a reduction in the level of noise emanating from the site. The development shall be subsequently carried out in accordance with the approved scheme.

b) Prior to the first occupation of the development a verification report shall be submitted to and approved in writing by the City Council as local planning authority to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved acoustic report. The report shall also undertake post completion testing to confirm that the noise criteria have been met. Any instances of non - conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria.

Reason - To minimise the impact of the development and to prevent a general increase in pre-existing background noise levels around the site pursuant to policy DM1 of the Core Strategy and saved Unitary Development Plan policy DC26.

10) Prior to the commencement of above ground works associated with the development (excluding demolition works), details of a waste management strategy for the site together with the details and locations of the storage of waste bins within the development shall be submitted to and approved in writing by the City Council as local planning authority. The development shall be carried out in accordance with the agreed details prior to its first and maintained in situ thereafter.

Reason - In the interests of residential amenity and to secure appropriate arrangements for the storage and collection of segregated waste and recycling, pursuant to policies SP1, EN19 and DM1 of the Core Strategy for the City of Manchester.

11) Within 3 months of the commencement of above ground works (excluding demolition works), a fully detailed scheme of highway works including technical drawings shall be submitted in writing to the Council as local planning authority, the submitted scheme shall include:

- highway and footpath layout including resurfacing of adjacent footway, and making good of redundant vehicle accesses;
- dropped kerbs;
- tactile paving;
- Confirmation that a section 278 agreement has been entered into for the completion of highway works and associated Traffic Regulation Orders
- Timescales for the implementation of the scheme.

The approved scheme shall be implemented and be in place within a timescale previously agreed in writing by the City Council as local planning authority.

Reason - To ensure safe access to the development site in the interest of pedestrian and highway safety pursuant to policies SP1, EN1 and DM1 of the Manchester Core Strategy (2012).

12) Prior to the first occupation of the residential development hereby approved, details and specification of electric car charging points within the approved development shall be submitted for approval in writing by the City Council, as Local Planning Authority. The approved details shall then be implemented and be in place prior to the first occupation of the residential element of the development.

Reason - In the interest of air quality pursuant to policies SP1, DM1 and EN16 of the Manchester Core Strategy (2012).

13) Notwithstanding the approved plans, prior to the first occupation of the development hereby approved details of the cycle parking provision for the development including drawings, numbers, locations, and type of provision to be incorporated shall be submitted to and approved in writing by the City Council as local planning authority. The approved details shall be installed prior to the first occupation of the development and be retained thereafter for use by people residing at the development.

Reason - To ensure that there is adequate cycle parking for the development in order to comply with policies T1,T2 and DM1 of the Core strategy.

14) Prior to the first occupation of the development hereby approved a Travel Plan shall be submitted to and agreed in writing by the City Council as Local Planning Authority. In this condition a Travel Plan means a document which includes:

- i) the measures proposed to be taken to reduce dependency on the private car by those residing in the development
- ii) a commitment to surveying the travel patterns of residents during the first three months of use of the development and thereafter from time to time
- iii) mechanisms for the implementation of the measures to reduce dependency on the private car
- iv) measures for the delivery of specified travel plan services

v) measures to monitor and review the effectiveness of the Travel Plan in achieving the objective of reducing dependency on the private car

Within six months of the first use of the development, a revised Travel Plan which takes into account the information about travel patterns gathered pursuant to item (ii) above shall be submitted to and approved in writing by the City Council as local planning authority. Any Travel Plan which has been approved by the City Council as local planning authority shall be implemented in full at all times when the development hereby approved is in use.

Reason - To assist promoting the use of sustainable forms of travel to the school, pursuant to policies SP1, T2 and DM1 of the Core Strategy and the Guide to Development in Manchester SPD (2007).

15) No drainage for the development shall be installed unless and until the full details of a surface water drainage scheme has been submitted to and approved in writing by the City Council as local planning authority. The submitted scheme shall include:

- Consideration of alternative green SuDS solution (that is either utilising infiltration or attenuation) if practicable;
- Evidence that the drainage system has been designed (unless an area is designated to hold and/or convey water as part of the design) so that flooding does not occur during a 1 in 100 year rainfall event with allowance for 45% climate change in any part of a building;
- Assessment of overland flow routes for extreme events that is diverted away from buildings (including basements). Overland flow routes need to be designed to convey the flood water in a safe manner in the event of a blockage or exceedance of the proposed drainage system capacity including inlet structures. A layout with overland flow routes needs to be presented with appreciation of these overland flow routes with regards to the properties on site and adjacent properties off site.
- Where surface water is connected to the public sewer, agreement in principle from United Utilities is required that there is adequate spare capacity in the existing system taking future development requirements into account.
- Hydraulic calculation of the proposed drainage system;
- Construction details of flow control and SuDS elements.

The development shall be undertaken in accordance with the approved details.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. This condition is imposed in light of national policies within the NPPF and NPPG and local policies EN08 and EN14.

16) No development hereby permitted shall be occupied until details of the implementation, maintenance and management of the sustainable drainage scheme have been submitted to and approved by the local planning authority. The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. Those details shall include:

- Verification report providing photographic evidence of construction as per design drawings;
- As built construction drawings if different from design construction drawings;
- Management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its lifetime.

Reason - To manage flooding and pollution and to ensure that a managing body is in place for the sustainable drainage system and there is funding and maintenance mechanism for the lifetime of the development.

17) The car parking as indicated on the approved plans shall be surfaced, laid out and demarcated prior to the first occupation of the development hereby approved. The car park shall then be available at all times for people residing at the development whilst the site is occupied.

Reason - To ensure that there is adequate parking for the development proposed when the building is occupied in order to comply with policy DM1 of the Core strategy.

18) Above-ground construction works shall not commence until samples and specifications of all materials to be used in the external elevations and hard landscaping around the buildings as detailed on the approved drawings have been submitted to and approved in writing by the City Council as local planning authority. Thereafter the development shall be carried out in accordance with those details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

19) All tree work should be carried out by a competent contractor in accordance with British Standard BS 3998 "Recommendations for Tree Work" and the approved Arboricultural Impact Assessment and Method Statement prepared by E3P.

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

20) No removal of or works to any hedgerows, trees or shrubs shall take place during the main bird breeding season 1st March and 31st July inclusive, unless a competent ecologist has undertaken a careful, detailed check of vegetation for active birds' nests immediately before the vegetation is cleared and provided written confirmation that no birds will be harmed and/or that there are appropriate measures in place to protect nesting bird interest on site. Any such written confirmation should be submitted to the local planning authority.

Reason - To ensure the protection of habitat of species that are protected under the Wildlife and Countryside Act 1981 or as subsequently amended and to comply with policy EN15 of the Core Strategy.

21) Notwithstanding the approved plans, within three months of the commencement of above ground works (excluding demolition works) a hard and soft landscaping treatment scheme including details and positions of all boundary treatments to be installed at the site shall be submitted to and approved in writing by the City Council as local planning authority. The approved scheme shall be implemented not later than 12 months from the date the buildings are first occupied and all boundary treatments shall be retained thereafter whilst the development is in use. If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the

opinion of the local planning authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason - To ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies SP1, EN9 and DM1 of the Core Strategy.

22) Prior to the commencement of above ground works (excluding demolition works), a scheme for the Biodiversity Enhancement Measures shall be submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be implemented prior to first occupation of the development (or in accordance with a phasing plan which shall first be agreed in writing with the local planning authority) and shall be retained thereafter.

Reason - Pursuant to biodiversity enhancement of the site, in accordance with policy EN15 of the Core Strategy and the National Planning Policy Framework.

23) The development hereby approved shall include a building lighting scheme and a scheme for the illumination of external areas during the period between dusk and dawn. The full details of such a scheme, including light spillage details, shall be submitted to and approved in writing by the local planning authority within 3 months of above ground works commencing (excluding demolition works). The approved scheme shall be implemented in full before the development is first occupied and shall remain in operation for so long as the development is in use.

Reason - In the interests of amenity, crime reduction and the personal safety of those using the proposed development in order to comply with the requirements of government guidance in the National Planning Policy Framework, saved policy E3.3 of the Unitary Development Plan for the City of Manchester and policies SP1 and DM1 of the Core Strategy.

24) The development hereby approved shall be carried out in accordance with the recommendations of the Crime Impact Statement prepared by Greater Manchester Police and shall not be occupied or used until the City Council as local planning authority has acknowledged in writing that it has received written confirmation of a secure by design accreditation.

Reason - To reduce the risk of crime pursuant to Policy DM1 of the Adopted Core Strategy for the City of Manchester.

25) Prior to occupation of the development hereby approved, the windows serving corridors on the ground, first and second floors within the north east and south west elevations as indicated on the approved plans shall be obscurely glazed and of a limited opening nature to a specification of no less than level 5 of the Pilkington Glass Scale or such other alternative equivalent and shall remain so in perpetuity.

Reason - To protect the amenity and living conditions of adjacent residential property from overlooking or perceived overlooking and in accordance with policies SP1 and DM1 of the Core Strategy.

26) The development hereby approved shall be implemented in full accordance with the measures as set out within the Building Regulations Part L Volume 1 - SAP Revision

R00 dated 21/07/2022 prepared by Seven, received by the City Council as local planning authority on 4th August 2022.

Within 3 months of the completion of the construction of the authorised development a verification statement prepared by a suitably qualified expert shall be submitted to and approved in writing, by the City Council as local planning authority, to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved SAP report. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the recommendations and requirements within the approved report.

Reason - In order to minimise the environmental impact of the development pursuant to policies SP1, T1-T3, EN4-EN7 and DM1 of the Core Strategy for the City of Manchester and the principles contained within The Guide to Development in Manchester SPD (2007) and the National Planning Policy Framework.

27) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) (or any order revoking and re-enacting that Order with or without modification) no part of the development shall be used for any purpose other than the purpose(s) of Class C3(a) of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended) (or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through provision of accommodation that is suitable for people living as families pursuant to policies DM1 and H11 of the Core Strategy for Manchester and the guidance contained within the National Planning Policy Framework.

28) Notwithstanding the General Permitted Development Order 2015 as amended by the Town and Country Planning (Permitted Development and Miscellaneous Amendments) (England) (Coronavirus) Regulations 2020 or any legislation amending or replacing the same, no further development in the form of upward extensions to the building shall be undertaken other than that expressly authorised by the granting of planning permission.

Reason - In the interests of protecting residential amenity and visual amenity of the area in which the development is located pursuant to policies DM1 and SP1 of the Manchester Core Strategy.

Informatives

Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:

http://www.manchester.gov.uk/info/100011/roads_parking_and_transport/1988/naming_and_numbering_of_houses_buildings_streets_and_roads/2

Any Demolition of Construction Management Plan prepared to discharge the relevant conditions attached to this decision will need to consider the following:

Any plan will need to consider the management of noise and vibration during both demolition and construction phases. Reference should be made to BS5228 Part 1 and the Plans should include, as a minimum, details of machinery and equipment to be used and their expected noise levels, the identification of the noisiest activities and who these activities / work may impact, duration of these activities, site wide noise and vibration mitigation measures with reference to BPM to be adopted on site specifically for the noisier or more intrusive activities, the maximum site noise level and vibration levels at the site boundary particularly during the noisier activities, details of monitoring including how monitored, location of monitoring in relation to receptors, how the site supervisor is alerted if the noise /vibration limit is approached or exceeded and details of what action is taken where the maximum site noise and / or vibration levels (once agreed) are exceeded. More information is also required with regard to the management of dust at the site during demolition and construction phases.

In order to discharge the condition relating to the storage and disposal of waste appended to this decision the following information shall be included.

The proforma/ Waste Management Strategy must include the following information:

Estimated volumes and types of waste produced by the development;

Details of internal and external stores for both waste and recycling, including any plans and designs;

Location of the proposed collection point and details of the route the collection vehicle will take;

Details of how waste will be transferred between stores and to the collection location; and

Details of number and capacity of bins proposed and collection frequency.

Other details as per 'Waste Proforma v1.0' - refer to guidance at:

http://www.manchester.gov.uk/downloads/download/6048/waste_management_strategy

10 units or below = low rise

11 or above = high rise

In discharging the acoustic insulation of the residential properties condition attached to this planning approval the following will need to be demonstrated.

Noise survey data shall include measurements taken during a rush-hour period and night time to determine the appropriate sound insulation measures necessary. The following noise criteria shall be required to be achieved:

Bedrooms (night time - 23.00 - 07.00) 30 dB LAeq (individual noise events shall not exceed 45 dB L_{Amax,F} by more than 15 times)

Living Rooms (daytime - 07.00 - 23.00) 35 dB LAeq

Gardens and terraces (daytime) 55 dB LAeq

Alterations to the highway will be required and are to be undertaken through S278 agreement between the developer and

MCC which would include any required technical approval. The following link can be used:

https://www.manchester.gov.uk/directory_record/287709/permission_to_work_on_the_highways_section_278_agreements/category/355/highways_and_pavements

It is expected that all modifications / improvements to the public highway are achieved with a maximum carbon footprint of 40%. Materials used during this process must also be a minimum of 40% recycled and fully recyclable. Developers will be expected to demonstrate that these standards can be met prior to planning conditions being discharged. The developer is to agree the above with MCC's Statutory Approvals and Network Resilience Teams post planning approval and prior to construction taking place.

A S278 agreement is required for works to the adopted highway - a deposit is required to begin the S278 application, additional costs will be payable and are to be agreed with S278 team.

The minimum standard S278 technical approval timescale is between 4-6 months, TRO's can take 10-12 months.

An independent 'Stage 2' Road Safety Audit will be required; this may necessitate design changes with all costs attributable to the Developer. For any projects that require a S278 and/or S38 highway agreement a Stage 1 Road Safety Audit (RSA 1) is requested to inform the preliminary design. This ensures that any underlying highway safety issues have been identified and mitigation is proposed accordingly. The scope and study area of the RSA1 will be agreed on a site by site basis however, as a minimum, it is

expected to include the following:

- o 5 years of accident history
- o Audit of key pedestrian routes (crossing points, footway widths, condition etc.)
- o Audit of key cycling routes (ASLs, cycle lanes etc.)
- o Highway layout including, but not limited to (visibility assessments, speed limits, TROs, traffic calming etc.)

A copy of the report (with Designer's Response) is to be made available to the Statutory Approvals Team upon request

Whilst the building to be demolished has been assessed as very low risk for bats, the applicant is reminded that under Conservation of Habitats and Species (Amendment) (EU Exit) Regulations 2019 it is an offence to disturb, harm or kill bats. If a bat is found all work should cease immediately and a suitably licensed bat worker employed to assess how best to safeguard the bat(s). Natural England should also be informed.

Cadent Gas Ltd own and operate the gas infrastructure within the area of your development. There may be a legal interest (easements and other rights) in the land that restrict activity in proximity to Cadent assets in private land. The applicant must ensure that the proposed works do not infringe on legal rights of access and or restrictive covenants that exist.

If buildings or structures are proposed directly above the apparatus the development may only take place following diversion of the apparatus. The applicant should apply online to have apparatus diverted in advance of any works, by visiting cadentgas.com/diversions

Prior to carrying out works, including the construction of access points, please register on www.linesearchbeforeudig.co.uk to submit details of the planned works for review, ensuring requirements are adhered to.

Your responsibilities and obligations

Cadent may have a Deed of Easement on the pipeline, which provides us with a right of access for a number of functions and prevents change to existing ground levels, storage of materials. It also prevents the erection of permanent/temporary buildings, or structures. If necessary Cadent will take action to legally enforce the terms of the easement.

This letter does not constitute any formal agreement or consent for any proposed development work either generally or related to Cadent's easements or other rights, or any planning or building regulations applications.

Cadent Gas Ltd or their agents, servants or contractors do not accept any liability for any losses arising under or in connection with this information. This limit on liability applies to all and any claims in contract, tort (including negligence), misrepresentation (excluding fraudulent misrepresentation), breach of statutory duty or otherwise. This limit on liability does not exclude or restrict liability where prohibited by the law nor does it supersede the express terms of any related agreements.

If you need any further information or have any questions about the outcome, please contact Cadent at plantprotection@cadentgas.com or on 0800 688 588

Date: 16 December 2022

Signed:

Julie Roscoe
Director of Planning, Building Control & Licensing

Manchester City Council, P O Box 532, Town Hall, Manchester M60 2LA

Notes

1. This permission refers only to that required under the Town and Country Planning Act 1990 does not include any consent or approval under any other enactment, byelaw, order or regulation.

2 If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, they may appeal to the Secretary of State in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of the notice of the decision.

The Planning Inspectorate have introduced an online appeals service that can be used to make appeals online. This service is available through the gov.uk website – www.gov.uk/planning-inspectorate. The Inspectorate will publish details of your appeal on the internet. Alternatively If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State has power to allow a longer period for the giving of a notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances that excuse the delay in giving notice of appeal.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the City Council (planning@manchester.gov.uk) and the Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

3. The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely Sections 70(1) and 72(1) of the Act.

4. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that they can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990

5. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to them. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
