

Certificate of Lawful Development
93 Hilliare street north m94jb

The property was purchased in 2019 from my father. It had been converted prior to him buying it. The property has been split for over 20 years therefore I have no receipts, plans or documents to support the application. I have been told that I need to provide 4 years of tenancy agreements which I have done in this application.

I therefore have no bills, plans or any documentation however no building work has been done.
