Description of site/building

Listed building: Grade II

Conservation area: Stevenson Square Conservation Area 1987

Tree Preservation Order: Not applicable

Description of area

The application relates to a building named Fourways House, which is located on Hilton Street and is bounded by Hilton Street, Tariff Street, China Lane and Brewer Street. The building is a former packing warehouse that is Grade II Listed and is located within the Stevenson Square Conservation Area. It is currently used as offices and has food and drink uses at the ground floor.

The building was designed by J.W. Beaumont and Sons and was constructed in 1906. It is sat on an island block, which is immediately adjacent to the Piccadilly Canal Basin. It was originally designed to house several tenants and was originally divided into four quarters and further divided into two halves, with each quarter having its own address. It is constructed of red brick and has a slate roof. The original sash windows have been retained on the upper floors.

Whilst retaining a generally good appearance and making a positive contribution to the conservation area and the surrounding group of listed buildings, the building is in need of some investment and has suffered due to inappropriate past interventions such as external roller shutters and suspended ceilings.

The building can be seen in context with the Grade II* listed Jackson's Warehouse and Grade II listed buildings including those at 49 to 51 Dale Street, 53 to 55 Dale Street and 45 Dale Street and is located within an area containing a number of former shipping warehouses of the same era.

The site is within an area of the City Centre known as the Northern Quarter which contains a variety of uses including bars, restaurants, cafes, offices, residential apartments, hotel uses, car parking and places of worship. Many of the uses within the Northern Quarter are independent.

The areas of the building subject of this application are on the second and fourth floors of the building.

Recent applications for Planning Permission and Listed Building Consent referenced 123242/FO/2019 and 122935/LO/2019 were approved on 30 August 2019 and allowed the refurbishment of existing building to comprise refurbishment of the atrium and street level entrances, new glazing within existing openings, a dedicated bin store, bike store and shower area, insertion of link bridges to all upper floor levels and associated enlarged openings into existing floor-plates, improved WC provision, new lighting, heating and ventilation equipment, externally mounted equipment and utilisation of redundant lift motor rooms as plant rooms with associated new louvred openings.

Since the approval of these applications, a number of further applications have been approved to refurbish and fit out more areas of the building.

Description of development

Listed building consent is now sought for the works to offices on the second floor and fifth floor of the building. The works are as follows:

Second Floor

- Insertion of 2no. solid partitions to subdivide the second floor into 2no. office units
- Modifications to recently completed heating, lighting and ventilation installations to suit new sub-divided office arrangements

Fifth Floor

- Strip out of modern internal partitions, WCs, and kitchen fixed furniture and finishes to create an open plan office.
- Installation of solid and glazed partitions to provide meeting rooms
- Creation of new WCs
- Relocation and extension of existing kitchenette
- Exposing and refinishing existing timber floors to match existing finish
- The creation of openings to unify the office spaces
- Amendments to heating, lighting and ventilation installations to suit new office arrangements

No external works are proposed.

Consultations & Notification Responses

Publicity - The application was advertised in the local press as affecting a listed building, a site notice was displayed on site and letters were sent to surrounding occupiers. No replies were received.

Issues

The Adopted Core Strategy for the City of Manchester

Policy EN1 (Design Principles and Strategic Character Areas) advises that developer's will be expected to consider the City's heritage, including its listed buildings, conservation areas, archaeological remains and historic street pattern.

Policy EN3 (Heritage) advises that new developments must be designed so as to support the Council in preserving or, where possible, enhancing the historic environment.

Policy CC9 (Design and Heritage) advises that development in Manchester should preserve or enhance the heritage assets affected.

Policy SP1 (Spatial Principles) advises that development in all parts of the City should protect and enhance the built environment.

Policy DM1 (Development Management) advises that all development should be appropriately sited, scaled, formed, massed and detailed with appropriate layout and materials and should have regard to the character of the surrounding area and effects on built heritage.

The Unitary Development Plan for the City of Manchester

Saved Policy DC14 (Shopfronts and Related Signs) confirms acceptable shop front works.

Saved Policy DC18.1 (Conservation Areas) states that the Council will seek to preserve and enhance the character of its designated conservation areas by carefully considering issues including the effect of signs and advertisements.

Saved Policy DC19.1 (Listed Buildings) advises that in determining applications for listed building consent the Council will have regard to the desirability of securing the retention, restoration, maintenance and continued use of such buildings and to protecting their general setting. The City Council will:

- Not permit any external or internal alteration or addition to a listed building where in its opinion, there would be an adverse effect on its architectural or historic character;

National Policy

Sections 16, 66 and 74 of the Listed Buildings and Conservation Areas Act 1990 requires that special consideration is given to the preservation of the significant fabric and setting of listed buildings and conservation areas. Development decisions should, therefore, accord with the requirements of the NPPF and to section 16 (Conserving and Enhancing the Historic Environment).

It is a fundamental requirement of the NPPF that planning proposals contribute to the achievement of "sustainable development". In order to meet this key planning objective, in this instance, the development should sustain and contribute to the stimulation of a thriving historic environment.

Paragraph 197 states that in determining planning applications, local planning authorities should take account of:

- The desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation.

- The positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and
- The desirability of new development making a positive contribution to local character and distinctiveness.

Paragraph 194 advises that local planning authorities should require an applicant to submit sufficient information to describe the significance of any heritage assets affected, including any contribution made by their setting.

Paragraph 200 advises that any harm to or loss of a designated heritage asset should require clear and convincing justification. Substantial harm or loss should be exceptional and substantial harm to or loss of designated heritage assets of the highest significance, including grade I and II* listed buildings should be wholly exceptional.

Paragraph 201 states that where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal, including securing its optimum viable use.

Section 12 (Achieving Well Designed Places) advises that the government attaches great importance to the design of the built environment. Good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people.

Under these criteria the effect of the proposal on the affected heritage assets has been considered.

Whilst most of the proposals affect modern fabric and reverse later interventions, which is beneficial, some of the alterations will cause a level of harm.

The improvements to remove subdivision and partitions to the 5th floor to open up the original spaces are welcomed and are supported by a method statement for the soft strip removal of modern fabric, making good and protection measures during the works.

The proposed alterations to divide the units in separate spaces is acceptable along the lines shown which will ensure the spaces are occupied, however it is disappointing that all of the internal meeting rooms do not have more lightweight glazing to better appreciate the openness of the space. The modern partitions close down the space whereas a lighter weight treatment would allow more of the original floorplate to be fully appreciated. However, there is only one solid partition now proposed for the meeting rooms and this is situated where it would block limited views.

All other works are considered to be beneficial.

Overall, the works would significantly improve and revitalise tired areas of the building and remove low-quality and detrimental office fitouts.

It is considered that the benefits of the proposal would outweigh the less than substantial harm caused to the affected heritage asset by the above described works and are consistent with paragraphs 196 and 197 of the NPPF and address sections 66 and 72 of the Planning Act in relation to preservation and enhancement. The benefits of the proposals are that the proposal consists of works that would increase the let ability of the building to help to ensure a future for the building.

Given the above, the works are considered to be consistent with the above identified policies.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

In assessing the merits of an application officers will seek to work with the applicant in a positive and proactive manner to seeking solutions to problems arising in relation to dealing with the application. In this instance this has included ongoing advice about the information required to be submitted to support the application and to address issues.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

The location plans referenced 1420 L 2200 received by the City Council as local planning authority on 3 August 2022

The drawings referenced:

1420 L 2246 Rev P02

1420 L 2243 Rev P03

1420 L 2244 Rev P04

received by the City Council as local planning authority on 28 September 2022

1420 L 2255 Rev P02
1420 L 2259 Rev P02
1420 L 2258 Rev P02
1420 L2245 Rev P03
1420 L2257 Rev P02
1420 L2260 Rev P01

received by the City Council as local planning authority on 3 August 2022

The Design and Access Statement prepared by OMI Architects received by the City Council as local planning authority on 3 August 2022

The Fourways Level 04 Method Statement received by the City Council as local planning authority on 2 September 2022

The Heritage Statement prepared by Stephen Levrant Heritage Architecture received by the City Council as local planning authority on 3 August 2022

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies EN3, CC9, EN1, SP1 and DM1 of the Core Strategy and saved policy DC19.1 of the Unitary Development Plan for the City of Manchester.
