

# FACT SHEET SEMPERGREEN® CLICK 'N GO SEDUMTRAY

## MATERIAL

The Sempergreen® Click 'n go Sedumtray is a container made of recycled HDPE. The pre-cultivated trays comprise ten to twelve different species of Sedum. The Sedum plants grow on a special substrate developed by Sempergreen®. The Sempergreen® Click 'n go Sedumtray boasts at least 95% coverage upon delivery. The sebaceous Sedum plants are adept at storing water in their leaves and are therefore extremely suitable for varying weather conditions.

## APPLICABILITY

The Sempergreen® Click 'n go Sedumtray is a ready-to-use tray that can be applied directly on the roof for an instant green result. This tray is applicable on flat and slightly sloping surfaces of up to 15 degrees.

## DELIVERY AND INSTALLATION

The Sempergreen® Click 'n go Sedumtray can be ordered by piece. Each tray measures 45.0 x 49.5 cm.

Sempergreen® Click 'n go Sedumtrays are very easy to install. The trays can be clicked together. To protect the roofing we advise to place a protective cloth underneath the trays.
