| 26-Oct-09       | ECP NOISE - People            | South West Manchester Cricket,<br>Ellesmere Road, Manchester, M21 0SG      | The noise and nuisance problems at South West Manchester Cricket Club are once again rearing themselves. We appear not to be able to communicate our concern to the Club's management in a way that results in pre-emptive action on their part. I wonder, are you still the person to direct concerns to? If not, can you let me know who is. Best wishes [REDACTED]                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 13-Sep-11       | ECM NOISE - Music             | South West Manchester Cricket,<br>Ellesmere Road, Manchester, M21 0SG      | [REDACTED] Last contact with us Jan 2010. After this function room closed for refurb so problems reduced. Function room has now re-opened and noise from people outside and music has become a problem again. [REDACTED] Usually problems on Fri/ Sat nights and Sun afternoons. Club had limiter set but sure this is not being used. Also issues with Drunkenness, disorder and opening past hours. 22 July - Noise outside in car park smoking area 22:00 -23:45. 23 July - Shouting/ screaming in car park at 01:00. 30 July - Noise from people outside 00:30 - 01:10. 9 Sept - Noise from music/ PA system 19:00 - 20:45 [REDACTED]. Noise from people leaving 00:00 - 01:15. Manager has been away on these occasions. Having Beer Festival at end of month and concerned about nuisance this will cause. |
| 05-May-15       | EC1 NOISE - Event/Concert     | South West Manchester Cricket,<br>Ellesmere Road, Manchester, M21 0SG      | Complaining about noise caused by an event cst thinks at South West Manchester Cricket club. Description of noise: Very loud pop/rock music all afternoon and Evening seems like a one off event so far all afternoon/evening I am only reporting today's noise. Could be heard from where I live in Whalley Range, a good 10 minutes walk away. early afternoon Sunday 3rd May 2015                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 07-September-15 | EC2 NOISE - Pub/Nightclub/Bar | South West Manchester Cricket Club,<br>Ellesmere Road, Manchester, M21 0SG | The club has had an event on all day with a PA system for announcements and latterly a pop band playing - all outside. The music is loud enough to hear it clearly in the house with all the double-glazed windows closed and makes sitting in the garden unpleasant. Pm usually - events are infrequent but very loud and only once did the club give any notice in what is a densely populated residential area. The announcements all day the music for the afternoon. Not keeping peor awake but pretty anti-social and means we can't sit outside comfortably on a sunny day. No motive to residents given either.                                                                                                                                                                                          |
|                 |                               |                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 09-Jul-17 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | party, singing, band was playing. Also another neighbor said, it was as loud as if a band was playing in our own kitchen. At 3AM. My daughter couldn't sleep until finished the party. They never inform us before they have the party. At the weekend, we feel stressed that they make noise again. Where is it coming from: next garden. How often is it: Huge party was 2 times when we moved here from Oct 2016. How long has it been happening: 17th June 2017. It was on around 10pm to 3pm.                                                                                                                                                                                                                                             |
| 27-Dec-17 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | What kind of noise is it: Music noise, big party. Where is it coming from: [REDACTED] Ellesmere Road. How often is it: A few times a year. How long has it been happening: started from around 22PM 26th Dec to around 2:00AM 27th Dec. I reported about same house last July. [REDACTED]. It isn't a big party like that I reported last time but still loud. We can't sleep.                                                                                                                                                                                                                                                                                                                                                                 |
| 30-Jan-18 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | Running and down the communal stairs, stomping around between the hours of 7am to 8am, coming back drunk making lots of racket, shouting, having loud sex numerous times in a week. Where is it coming from: Upstairs. How often is it: Daily. How long has it been happening: As soon as the tenants moved in, in October. I've spoken to them on 2 occasions and left a note and just complained to my estate agents                                                                                                                                                                                                                                                                                                                         |
| 23-May-18 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | They have a tv on so loud it can be heard very clearly all night. I am rarely able to sleep. Sometimes they don't switch it on until 1am so I am abruptly woken up. This is heavily affecting my work. Where is it coming from: [REDACTED]. How often is it: Every night. How long has it been happening: Been happening for months but got much worse in recent weeks                                                                                                                                                                                                                                                                                                                                                                         |
| 18-Sep-18 | EC3 NOISE - Other                           | Street Record, Ellesmere Road, Manchester             | courtyard of the apartment complex. Other noise type: electrical generator parked. Description of the noise: This produces a very loud, low frequency noise which resonates the windows and is loud enough to prevent sleep. How long has it been a problem: 17/09/18 What time does it occur: 3am. There is a very loud electrical generator parked in the courtyard of the apartment complex.                                                                                                                                                                                                                                                                                                                                                |
| 29-Oct-18 | EC5 NOISE - People & Noise Making Equipment | Street Record, Ellesmere Road, Manchester             | Regular noise coming from the first floor of this building, bands, music and loads of people. Other noise type: bands, people and music. Description of the noise: Regular noise coming from the first floor of this building, bands, music and loads of people. Its starting to be a regular occurrence. Started at 8pm and goes on until early hours of the morning. How long has it been a problem: couple of months. Building has been complained about previously and the owner did kick them out but its starting again.                                                                                                                                                                                                                 |
| 01-Nov-18 | ECP NOISE - People                          | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | Constant slamming of doors to the point that our flat (located above it) shakes. Not only do they shout in the building but they shout from street level up to a 1st floor flat which can always be heard even if the windows are closed. Where is it coming from: [REDACTED], directly below us How often is it: Usually multiple times a day. How long has it been happening: for over a year. Outcome of speaking to the perpetrator (if applicable): They do not care or attempt to change or be more respectful of other people who live in the building. It only gets worse each day. [REDACTED]                                                                                                                                         |
| 28-Oct-19 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | [REDACTED] moves into the upstairs flat around 4 weeks ago. Since then he hosts friends over at least once a week, always on a week night and lasting until all hours of the morning playing music and very loud talking that sounds like it is within my own flat. The windows are open for smoking so the sound is even louder as my windows are below his. He also has incredibly loud sex once a week in which it sounds as though furniture is being moved. This is also always on a week night and lasts until at least 3am. Where is it coming from: [REDACTED] Ellesmere Road How often is it: Tonight this started around 10pm. Outcome of speaking to the perpetrator (if applicable): They would not answer the door when knocking. |
| 06-Feb-19 | ECC NOISE - Commercial                      | Street Record, Ellesmere Road, Manchester             | Construction site on Ellesmere Street. Company name: Graham Construction. Constant loud drilling noise in front of my property that is very disturbing. How long has it been going on: Since construction began. What time does it happen: Every Saturday                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|           |                                             |                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 30-May-19 | ECC NOISE - Commercial                      | Street Record, Ellesmere Road, Manchester             | Construction work being carried out at rear of apartments. At the back of the apartments they are digging it all up and clearing it out to build a garden area and renovating the mill to build new flats. The noise made by the diggers and the workmen sounds as though it is in the flat itself. As the area where they are working is surrounded by 6 floors of flats, this echoes and is even louder. They throw things out of the window from all floors, they shout to each other, and the diggers they are using are non stop. How long has it been going on: This started 2 weeks ago around 14th June. What time does it happen: Every morning - weekdays                                                                                                                                                   |
| 24-Mar-20 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | Loud music or noise from home repair work. The neighbour is purposefully banging on his ceiling, floors and walls to disturb the other neighbours. I have a timestamped audio recording of this. Where is the noise coming from?: [REDACTED], directly downstairs from my bedroom. The intentional banging on the ceiling started at 5:45am on 23/3/20 The loud music started at around 6:45am, which was turned up even louder at around 8am. This neighbour [REDACTED] does this regularly. He blasts music at inappropriate times, hovers at 1am, intentionally bangs on the floors / walls / ceilings to disturb other neighbours, plays his TV ridiculously loud until midnight, swears through the walls / ceiling and threatens to murder other residents (we have contacted the police about this [REDACTED]) |
| 08-Jun-20 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | Party most weekends. Recent party was Friday 5th June 9pm till 5am on Saturday Where is it coming from: Inside the house. There is drug taking and dealing and driving of off road trail bikes. Police have attended but this does not seem to have stopped them. Further details: They have come and aggressively accused me of ringing the police.                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 16-Jul-20 | EC5 NOISE - People & Noise Making Equipment | [REDACTED] Ellesmere Road, Manchester, M21 [REDACTED] | Loud music or noise from home repair work. Loud party. Where is the noise coming from?: Garden and house. How often does it happen?: Weekly - with increasing weekday frequency. When did the current noise start? (time, date): Several years ago. Have you spoken to the person or company responsible?: Yes. If you HAVE spoken to the person or company, what was the outcome?: Aggression and refusal to end party.                                                                                                                                                                                                                                                                                                                                                                                              |
