

Waste Management strategy – Medical centre

Document reference : 2282_sch01

Estimated volumes and provisions

Waste type	Number of bins required	provision
General refuse	1X120L	1X120L
Mixed Recycling	1X120L	1X120L
Medical waste	All medical waste will be collected by a specialist waste removal contractor	

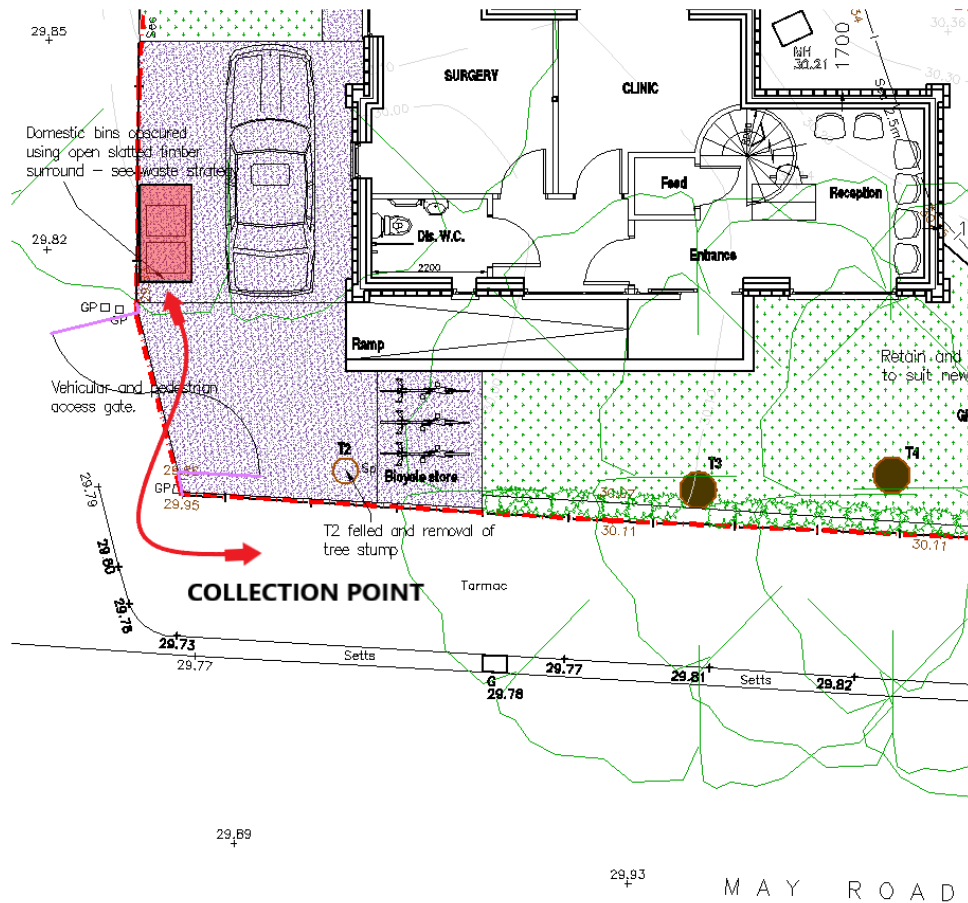

Storage area location

As located upon drawings site Plan L2-200 & Boundary fence treatments L201A a timber bin store will be constructed to obscure visibility.

Both bins are accessible from the building and located within easy access of the main entrance

Staff will ensure bins are left out upon the highway at appropriate collection times.
Both bin store and bin will regularly be inspected and cleaned as necessary.

All medical refuse is to be kept inside the premises located within the storeroom to rear of surgery.

Collection and removal is via a dedicated rear exterior access door.

Arrangements for removal and disposal will be under contract with a specialist waste collection contractor.
