Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

Exterior

- 1) Form a new rear wheelchair access door to the North elevation of the main building that is level with the rear yard. Detailing generally similar to the other door in this wall.
- 2) Partially dismantle the wooden gates and brick piers enclosing the rear yard and rebuild similar form as the existing but creating a wheelchair access door and a door to bin store.
- 3) Replace the 1980s sash windows in the south and west elevations with high quality new timber sash windows with fixed upper light, slimline sealed unit glass and discrete draught stripping. This is to reduce heat loss and gain.
- 4) Insert 2 no small windows to the north wall of the North extension to light bathrooms and WCs. These to be facing into the railway arch.
- 5) Add a new cast iron rainwater pipe to the south street frontage. This is to reduce the load on the single pipe that takes 85% of the total rainfall load on the roof.
- 6) Re-model part of the existing north roof slope over the old staircase WCs so that it becomes in line with the main slope rather than notching back to a flat roof area. This simplifies the rainwater management and maintenance over the existing roof slopes.

Interior

- 7) Remodel the timber ground floor in the rear room at the north west so that it has a section that is level with the new external yard door. Install an internal platform lift in this room to make the ground floor accessible to those in a wheelchair.
- 8) Remodel the interior of the north extension on both ground and first floor to install a simple vertical wheelchair lift between the floors. The room will also be subdivided to form bathrooms and WCs, some of which will be accessible.
- 9) Strip out the existing 1980s chipboard floors, skirtings and architraves, Dry line the external walls to reduce heat loss and install a set of hardwood floors, painted skirtings, architraves and cornice.
- 10) Strip out a 1980s partition in the rear room at the north west on the first floor so that this can become a single space again (to be used as a library).
- 11) Remodel the plain sloping ceiling at the top of the stair and add a glass ley-light feature so that this can become a more attractive and elegant summit of the stair.
- 12) Cut back the existing east wall at the mid landing as this restricts the stair width in the case of a fire emergency.

Details of the pre-application advice received

The pre-application advice was offered in the course of a site walk round between the Architects and D. Brettell, P. Burbicka and P. Mason .

The collected view on the day was that the officers were broadly supportive of the change of use and the aspirations of making this an accessible holiday accommodation business. The way that this is achieved though would be 'all in the detail'.

The architect produced a set of notes detailing the conversation (which were shared) but no written statement was produced by the Council officers.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
