Subject: RE:CDN/22/0447 - Discharge of condition 11

Hi Angela,

I have discussed with the applicant, and One Plus Four have said their intention is to have the following management procedure in place:

- One Plus Four have set a limit in advance to all technicians that sound must not go over 98DB.
- One Plus Four will set the DB limit on every show to 98DB.
- The sound engineer employed by One Plus Four (VIA adlib), will be advised to oversee and ensure this level is not exceeded throughout the show.
- The production manager and event manager for each show will also be overseeing and monitoring the levels and will do random checks across the evening.
- If anyone is found to go over this limit One Plus Four will manually take it back down to 98DB - with a warning to say this will enforce a show stop.
- If they proceed the limit again then One Plus Four will enforce a show stop with the TM and the rep.
- This procedure will be re-iterated to all touring productions upon arrival.

Could I confirm whether a written Management Note stating this procedure would be sufficient, in place of an electronic sound limiter?

Many thanks,

Eithne

Subject: [EXT] Re: CDN/22/0447 - Discharge of condition 11

Hi Eithne

Just to clarify what Graeme expects is:

This would need to be the details of the sound limiter to be installed and then once installed, photographic evidence of it in situ and photographic evidence of the limits set. Plus, we will require details of how this has been made tamperproof

Best Wishes

Angela

Hi Eithne

You will have seen Graeme's e-mail but I am now formalising where we are and

To provide full discharge of the validation condition, all we require now is evidence to demonstrate that the internal noise levels have been set throughout the venue and subsequently controlled (and made tamper proof) to the levels adopted in the planning report and used during the validation assessment.

Can this be provided please

Best Wishes
Angela
