

# **BREAKING NEWS**

Prismaflex UK has the first PSP in the world to gain Certifire - TS62 rating for its printed PVC-free Kavalan banners and building wraps. The Certifire - TS62 accreditation takes into account how our inks, printing processes and specific materials - Kavalan Sunlight Weldable Frontlit Banner and PVC-free Kavalan Spiderweb 300 Mesh - work together to achieve the highest fire-safety solution recognised by worldwide regulatory authorities.

We can now guarantee that any printed Kavalan Sunlight Weldable or Spiderweb Mesh installed on scaffolded buildings, construction sites, or any other promotional and branding applications using banner/mesh comply with the most stringent safety performance specifications.
