

An architectural rendering of a two-story house. The house features a gabled roof with a brick chimney on the left side. The front facade has a large gable window with multiple panes. Below the gable, there is a front porch with large glass doors and windows. The house is surrounded by a low brick wall. The rendering is in a light, sketchy style with some shading to indicate depth.

A detailed 3D architectural rendering of a two-story brick townhouse. The house features a flat roof with two prominent chimneys. The front facade includes a central entrance with a small porch and a set of double doors. There are several windows, some with shutters. The house is surrounded by a low brick wall, and a neighboring house is visible to the left.

This architectural elevation drawing shows a two-story house. The roof is gabled with a brick chimney on the left side. The upper story has a large window with multiple panes and a smaller square window. The lower story features a brick base with a large window, a dark door, and a small square window. A brick wall section is visible on the right side of the house.

An architectural elevation drawing of a three-story brick building. The central section features a double door on the ground floor, flanked by a window. Above the door is a small transom window. The second floor has two windows, and the third floor has a single window. A chimney is visible on the roof. To the left and right are smaller sections of the building, also with windows. The drawing is in black and white with a brick pattern texture.

This is a detailed architectural elevation drawing of a brick house. The house features a gabled roof with two prominent chimneys on the ridge. The main facade is made of brick and has a single, small, square window with a dark frame. To the left, there is a side entrance with a dark door and a small window above it. A low brick wall or fence runs along the front of the property. The drawing uses fine lines and cross-hatching for shading and texture.

This is a detailed architectural elevation drawing of a brick building. The main structure features a large gabled roof with a decorative finial at the peak. The walls are constructed from brick, with a horizontal line indicating a change in level or a different brick pattern. To the left, there is a smaller, lower section of the building with a flat roof and a single window. A small, dark, rectangular feature, possibly a door or a small window, is visible on the main building's facade near the base of the gable. The entire building is set on a foundation represented by a cross-hatched pattern.

Scale bar 1:100

A horizontal scale bar with a black outline. It is divided into segments by vertical tick marks. The segments are of varying lengths: a short segment from 0 to 1, a medium segment from 1 to 2, a short segment from 2 to 3, a medium segment from 3 to 4, a short segment from 4 to 5, and a long segment from 5 to 10. The numbers 0, 5, and 10 are placed below the bar at their respective positions. The unit 'm' is placed at the end of the 10 m segment.

This architectural floor plan shows a house with a central garden. The house is divided into several rooms: a Store at the top right, a Dining Room on the left, a Kitchen in the center, a Living Room below the Dining Room, a Family Room at the bottom left, and a Foyer at the bottom center. A staircase labeled 'UP' is located in the Foyer. The plan includes various architectural details such as doors, windows, and a chimney. The garden is situated between the house and a neighboring property on the right.

Technical drawing of a staircase showing a side elevation and a plan view. The side elevation shows a staircase with a landing and a door. The plan view shows the layout of the staircase and the landing. Dimensions are provided for the staircase and the landing.

Architectural cross-section drawing of a house. The drawing shows the internal structure, including the roof, walls, and floor. Key dimensions are labeled:

- Roof peak height: 2118
- Main floor height: 2655
- Total height from ground level to roof peak: 3675
- Width of the main floor: 2700
- Height of the ground floor: 2250

The drawing also shows a staircase and a small window.
