Consultations & Notification Responses

Local residents, as per Appendix 1 - No comments, objections or representations in respect of this application were received.

Policy and Issues

- o Unitary Development Plan (UDP) - The UDP has been superseded by the Core Strategy Development Plan.
- o Policy DC1 for Residential Extensions is still considered of relevance, in particular policy DC1.5 - The Council will consider on their merits exemptions to the above policies in the case of applications from disabled people who may require particular adaptations to their homes.
- o The Manchester Core Strategy Development Plan Document 2012-2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012.
- o Policy DM 1 - Development Management
- o Policy SP1 - Spatial Principles
- o Policy EN1 - Design Principles
- o Policy EN19 Waste
- o The National Planning Policy Framework (NPPF)

For reasons to be outlined below, it is considered the proposal accords with the principles of this policy document.

Principle

Policies SP1 and DM1 of the Manchester Core Strategy 2012 (Core Strategy) seek to ensure that new development enhances or creates character, protects and enhances the built environment; and that the design, scale and appearance of the proposed development is appropriate to its context. Policies DC1.1, DC1.2, DC1.3 and DC1.4 of The Unitary Development Plan for the City of Manchester 1995 (UDP) relate specifically to residential extensions and set out a number of criteria against which proposals for extensions will be assessed. Although these latter policies are now of some age, they are consistent with the guidance in the National Planning Policy Framework (NPPF) which seeks a high standard of design in new developments which provides a good standard of amenity of all existing and future occupiers.

The principle of allowing residents to extend their homes to provide enlarged or improved accommodation is generally acceptable provided that there is no overriding, undue impact upon either the character of the property or upon the residential and visual amenity of nearby residential occupiers.

In this instance the principle of the proposal is considered acceptable, and it is believed that there are no factors of sufficient weight in amenity terms that would warrant refusal of the application.

On balance, the proposal is deemed to accord with saved policy DC1 of the UDP and policies DM1 and SP1 of the Manchester Core Strategy.

History

Previous planning applications relating to this site as follows:

100518/NMC/2012/S2 - Application Approved - 02.10.2012 Non-Material Amendment to planning permission ref: 098433/FH/2012/S2 to allow alteration to roof

098433/FH/2012/S2 - Application Approved - 13.04.2012 Erection of two storey side extension to provide additional living accommodation

Residential Amenity

The applicant is seeking planning permission for the erection of a single storey rear and side extension to form additional living accommodation. The property is angled towards no. 28 Kingsfield and features an existing two storey side extension.

The extension would project off the rear wall of the previous side extension extending rearwards beyond the original rear wall of the property by 3.0m wrapping around and up to the shared boundary with the adjoining semi detached property no. 32 Kingsfield Drive. The roof would be mono pitch with the inclusion of three roof lights to a height of 3.6m approximately. No windows are proposed on the sides, however a window and bi folding doors are proposed on the rear elevation.

Taking into account the orientation of the application site to the adjoining semi detached property and the retained gap to no. 28 Kingsfield Drive together with its projection, it is not considered that the introduction of a single storey extension along the side and rear would provide a detrimental outlook on the adjoining properties or the surrounding area.

The extension would not be visible from the public highway due to the presence of an existing two storey side extension, and therefore would feature within the street scene. It is noted that some houses in the immediate vicinity are themselves altered and extended as enlargements to the properties in this area are particularly popular. However, the character of the area has been

retained. Therefore, the appearance is acceptable and its impact upon visual amenity is considered negligible.

On balance, the extension is considered comparable in terms of size and its position to others found in the immediate area, therefore it is felt that the proposal can be acceptably accommodated at the application property.

The proposal complies with The National Planning Policy Framework; Core Strategy policies SP1, DM1, EN1 and Saved Policies DC1 Unitary Development Plan.

Siting, scale and massing

The proposal has been sited and designed to ensure that it is subservient to the original dwelling house. The size and footprint of the proposed extension is not believed to provide an overbearing impact upon the residential amenities of surrounding properties. It is therefore considered that the scale and mass of the proposed extension is satisfactory and is therefore considered to accord with the principles for residential extensions set out in saved UDP policy DC1, DM1 and EN1 of the Core Strategy.

Design and Appearance

The design of the extension has been tailored to fit the shape of the existing property/plot and respect the relationship with the neighbouring property at the side and rear which is considered acceptable and detailed as what is normally expected of such a structure. The design of the proposal would be an acceptable addition to the property and in terms of the proposed materials it is intended to use matching brick and render as specified in the application form.

On balance it is considered that the design and appearance of the proposed development accords with Core Strategy Policies DM1 and EN1 and in general the design is considered acceptable.

Waste management

The location of refuse bins are unaffected by this proposal and therefore accords with EN19 of the Manchester Core Strategy.

Parking

Parking is unaffected by this proposal as off road parking would be available on the front drive.

Conclusion

The proposal is considered to be acceptable in this location in terms of design, scale and massing, allowing the occupiers to adapt their home to meet their needs, without unduly detrimentally affecting the amenities of the occupiers of surrounding properties, and there are no material considerations of sufficient weight to indicate otherwise.

It is considered that the proposal would not give rise to any undue loss of amenity, loss of light or loss of privacy to neighbouring occupiers, therefore, the proposal is considered to accord with saved UDP policy DC1, policies SP1 and DM1 of the Core Strategy.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made

representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Positive and proactive working Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. The application has been determined in a timely manner and in accordance with the policies within the Development Plan

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

Received on 22nd August 2022 numbered (02)001 Revision PL0 Proposed Plans, Site Plan and Elevations

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy

3) The materials to be used on the external surfaces hereby permitted shall match those as specified on the application form in type, size, colour and texture.

Reason - To ensure the appearance of the building to be extended is not adversely affected by the materials to be used in the construction of the structure, pursuant to policy DM1 of the Manchester Core Strategy.
