Dear Sue,

REF: Application number: 135215/FO/2022 – Development Description

Further to the letter received today (attached), please find below the requested update to the description of development. I am unable on the planning portal to make an update to the form independently and so have provided this here in email:

*'Replacement of existing college entrance Security Hut **with new section of fencing** to provide better welfare facilities for the staff. New security hut provides additional desk space, tea making facilities and WC. (Location amendment to approved application Application reference 134551/FO/2022)'*

I trust that this is sufficient and will enable you to progress the application accordingly. Please do let me know if you need anything further.

Kind regards,

James Whatmore BA(Hons) PGDipArch MArch ARB RIBA*he, him, his*
