002_SOHO HOUSE MANCHESTER
WINDOW TREATMENT PREAMBLES

TO BE READ IN CONJUNCTION WITH MASTER FINISHES SCHEDULE

NOTE: SAMPLES OF ALL FINISHES TO BE ISSUED TO SHD FOR REVIEW & APPROVAL PRIOR TO PROCUREMENT.
REFER TO DRAWING PACK FOR MANUFACTURING INSTRUCTIONS.

SPECIAL INSTRUCTIONS - WINDOW TREATMENT

- 1. MUST BE OF CONTRACT QUALITY AND SUITABLE FOR COMMERCIAL USE. FABRICATION TO BE IN ACCORDANCE WITH SOHO HOUSE.
- 2. Quantity/Dimensions: Must be verified and confirmed by manufacturer on site prior manufacturing. Drapery to finish 5mm above FFL.
- 3. Material must be treated with commercial grade stain, mildew and soil repellent.
- 4. Provide dye lot sample for approval by SOHO HOUSE prior to cutting and shipping fabric.
- 5. Fabric backing as required and recommended by fabric supplier. Black out required for all guestrooms.
- 6. All fabrics to be dimensionally stable. Fabric must be first run goods from full bolt A. Fabric should be pre-shrunk, non-fading and non-crocking.
- 7. Manufacturer to advise designer if there are any problems with specifying this product for the intended use.
- 8. Must meet all relevant local and government fire codes and regulations. Should applicable codes do not include fabrics, then fabric must be treated to United Kingdom Crib 5 or equivalent.
- 9. All fabrics for mechanized drapery systems should be coordinated and reviewed with the appropriate consultants.
- 10. All hardware shall be installed using appropriate fastening device. Contractor/manufacturer shall submit shop drawings on exact metal of installation. All metal parts to be rust-proof and contract quality.
- 10. Where patterns with repeats are specified, draperies shall be cut individually per room, so that all patterns match at top and bottom.
- 11. Installer to dress drapery and ensure free from creases and check fit, size and ease of operation of all drapery and track.
- 12. No stitching should be visible to face side of drapery.
