Subject: On behalf of the Whitehouse club

Bullet points below highlighting our requirement for 2.1m high security fencing to boundary of site to provide security for the new club. Please also see photographic examples of similarly high fencing at different locations along Middleton Road. Please send on to Manchester Planning on our behalf.

- Provides security and safety for employees and the Steward who lives on site.
- Controls access to the club grounds and smoking area.
- Enhances the image of the club and overall site.
- Marks the club's boundary.
- Deters thieves and vandals (site already breached 3 times).
- Protects passing members of the public using the footpath, unlike a thorned bush.

Thank you. Dawn Foster
