Cembrit Colourful design line

Add colour. Add life.
Add your vision.

add personality

FACADE BOARDS
BY CEMBRIT

The Cembrit Colourful design line is a range of expressive facade boards that make any building come to life. Each with a unique personality.

Use the boards as a subtle aesthetic nuance or as a bold architectural statement. As elegance. Or raw power. The choice is entirely yours.

Every board is crafted with durability and long-lasting quality in mind, guaranteeing you a facade that will connect inside and out, match your ambitions and mirror nature's colours. And remain eye-catchingly beautiful for years to come.

Add colour. Add life.
Add your vision.

CEMBRIT COVER

It is life lived in colour.

Cembrit Cover is all about appearance and creating long-lasting first impressions.

This is the board you would bring along to a red-carpet event: Flashy, but never too much. Expressive, but with something important to say.

With endless colour variations, Cembrit Cover allows you to explore and pursue any architectural idea and becomes a constant source of vibrant energy. It is thus perfect for buildings that house learning, laughter and life.

Blend in or stand out?
With Cembrit Cover, you decide.

CEMBRIT SOLID

It will never let you down.

Cembrit Solid literally has you covered to the core.

With this board, a word is a word.
A colour is a colour. And solid means solid.

It is the colourful edge to your building design,
and provides a calm expression from every angle
thanks to its through-coloured qualities.

Small scratches and marks will remain practically
invisible as the years pass – maintaining its
strong, but subtle expression and living up to
its name every single day.

Always beautiful. Always the same.

CEMBRIT TRANSPARENT

It is rugged elegance.

Cembrit Transparent is stable sophistication in one board: An outside designed to impress. An inside built to last.

This board speaks to the senses with its elegant charm – and it doesn't need to shout out to receive envious looks or positive attention.

The transparent surface lets you peek through the board, which reveals the true character of the robust core: Fibre-cement and coating in unity.

A facade board that simply exudes style.

**Colour your life.
Colour your thinking.**

For the love of colours, the facade boards from Cembrit Colourful design line offer a range of creative possibilities with different combinations to choose from – be it Cembrit Cover, Cembrit Solid and Cembrit Transparent.

Playful facade boards decorated with colourful patterns provoke a sense of curiosity and stimulate imagination, helping to create an ever-changing external environment filled with life around such buildings.

Cembrit Cover

Cembrit Cover is the ideal solution if you prefer the strongest colours and bolder design statements. The natural grey fibre-cement core is completely covered by a layer of water-based acrylic paint, with 26 standard Cembrit colours and more than 2000 NCS® colours to choose from.

Properties	
Cembrit Cover	
Length	2500/3050mm
Width	1192/1250mm
Thickness	8mm
Weight pcs	14.2 kg/m²
Through coloured	No

Cembrit Solid

The special thing about Cembrit Solid boards is that they're the same colour all the way through. Each of the core colours is matched with a full-coverage painted surface in vibrant yet resilient colours. This means if you choose Cembrit Solid boards to provide a facade with a particular colour, every board will feature that colour on every surface and edge, and with the same colour on the edges of any cut-outs or drilled holes.

Properties	
Cembrit Solid	
Length	2500/3050mm
Width	1192/1250mm
Thickness	8mm
Weight pcs	14.2 kg/m²
Through coloured	Yes

Cembrit Transparent

Cembrit Transparent facade boards combine the textured nuances and natural characteristics of the base board with a long lasting performance of the transparent top coat. The colour added to the fibre cement reveals and highlights the fibres and other raw materials that provide its strength and character. The extremely durable transparent coating then protects the board and ensures a smooth surface with a long service life.

Properties	
Cembrit Transparent	
Length	2500/3050mm
Width	1192/1250mm
Thickness	8mm
Weight pcs	14.2 kg/m²
Through coloured	Yes

Mixing colours of your choice.

Every Cembrit Colourful
facade board adds a
vibrant look to your
building design.

Bring your architectural
statement to life with
the facade boards
from Cembrit.

The natural choice.

– with exceptional durability.

The Cembrit Colourful design line is a range of expressive and vibrant facade boards made of virtually maintenance-free fibre cement.

Fibre cement is a natural product made of cement, water, minerals and fibre – and it is changing the way we design and build facades around the world thanks to its long-lasting, expressive qualities.

Every board is designed to be:

- Durable – resilient against moist, dirt and wear-and-tear
- Fire-safe – to protect people and assets
- Maintenance-free – hassle-free
- Surface-treated – resistant to mould and fungi

Colours communicate. Inspire creativity.

Colours in architectural design are important to function together to create a common visual space that resonates with the varied emotions of the human psyche. The facade boards from Cembit Colourful design line enhance the learning environment. Smart choices in colour and patterns may facilitate the overall learning experience for kids and adults.

A photograph of a modern, multi-story apartment building. The facade is composed of various panels in different colors and textures, including white, light grey, dark grey, orange, and wood-grain. Large windows and balconies with glass railings are visible. The building is set against a clear blue sky. In the foreground, there is a green lawn with some small plants and a gravel path.

Colourful elegance. Sophisticated and flashy.

Cembrit Colourful design line encompasses both the flashy eye-catching colour palette and the elegant and more subtle colour choices. The combination of flashy and sophisticated colours or the deliberate toned down nuances - the combinations are endless. The choice is yours.

Boligforeningen Vesterport

Diversity and variety were important keywords when the Housing Association 'Vesterport' were developing the residential building 'Fladstrandsparken' in Frederikshavn, Denmark. From the beginning, the idea was to create an exciting residential area with experiences around every corner. With facade boards in different colours and formats in combination with wood, four new residential areas were created and the objective was met - the eye would be enriched with new and varied impressions all around the area.

Boligforeningen Vesterport

The ventilated facade

The facade boards from Cembrit not only add personality and quality. They are the perfect match for a ventilated facade. A ventilated facade helps minimise temperature variations in the wall throughout the year. Sunlight and heat are reflected away from the building in the summertime, and insulation behind the facade boards reduces heat loss at lower temperatures. At the same time, the natural ventilation passing through the structure minimises condensation. The ventilated facade has a range of additional benefits:

- Protection of the underlying structure against weather
- Drainage of rain water away from the structure
- Low weight facade enables energy-efficient design
- Thinner wall structure, as the facade will take up less space
- Flexibility in design with horizontal or vertical joints and board-orientation
- Low maintenance
- Long lifespan

Don't think it. Visualise and sample it.

Try our new visualisation tool and see for yourself how your next project will look. Discover the wide-ranging design and application potential of all our facade boards on cembrit.com – where you can also order a sample of the different board types.
