Tree Preservation Order:

Description of site / building / area

The application relates to a modern 3 storey semi-detached dwellinghouse characterised with the elevation comprising of red brick with buff brick panel detailing along the front façade. The application property incorporates car parking at the front of the house, including boundary treatment. The application site is located in a modern residential development in the Ancoats & Beswick ward of Manchester comprising of 2 and 3 storey houses granted planning permission under: 103550/FO/2013/N2 - Erection of 125 no. x two and three storey terraced, semi-detached and detached properties with associated car parking and landscaping.

There is a recent planning permission for erection of single storey side and rear wrap-around extension to form additional living accommodation - Approved 04/03/2022 (ref: 130940). At the time of the officer's site visit it was noted that the permission had not been implemented.

Description of development

The initially submitted plans related to the proposed erection of two-storey side extension to form additional living space.

Following negotiations, the initially submitted plans have been revised in the interest of residential amenity, (dated 01/08/2022) and the description of the proposal subsequently amended to: Erection of a single storey side extension to form additional living accommodation, to reflect the revised plans.

The proposed single storey side extension would be set-back approximately 400mm from the front building line of the original dwellinghouse and maintain a proposed width of approximately 4000mm. It would project approximately 7600mm along the side elevation and along the side gable facing the common shared boundary with nos. 23 - 27 Wynne Close. It would be set-back approximately 2333mm from the rear building line of the original house. The proposed maximum height would be approximately 4820mm. The extension would have one window along the front elevation and patio doors along the rear elevation, and have a monopitched pitch roof configuration which would be consistent with the developments along the streetscene. In terms of materials, it is intended to use white render with red brick inserts between windows to match the design of dwellings in the vicinity.

Consultations & Notification Responses

1. Local residents

Occupiers of properties surrounding the application site were notified of the proposal. No comments, objections or representations were received.

Neighbours were re-notified following revised plans. No comments, objections or representations were received on this occasion.

2. Environmental Health

Environmental Health's comments relate to:

a) DEMOLITION/CONSTRUCTION PHASE

Construction/demolition works shall be confined to the following hours unless otherwise agreed in writing by the City Council as local planning authority:

- o Monday - Friday: 7.30am - 6pm
- o Saturday: 8.30am - 2pm
- o Sunday / Bank holidays: No work

Reason - To safeguard the amenities of the occupiers of nearby residential and commercial properties during the construction/demolition phase.

b) GAS02 - Extensions where gas protection measures already exist in property being extended

Prior to the commencement of development appropriate and comprehensive construction designs for the installation of a proprietary gas membrane, in order to alleviate any possibility of landfill gas ingress to the building, shall be submitted for approval to the City Council, as Local Planning Authority. The approved details shall then be implemented as part of the development. Any further development must not compromise any existing remedial measures previously installed at the site as part of Planning Permission 103550/FO/2013/N2. Upon completion of the

works, a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority, to ensure that the existing remedial measures have not been compromised.

Reason -The existing development has had remedial measures installed as part of Planning Permission 103550/FO/2013/N2. The current works shall not compromise the protection afforded by these earlier measures. Pursuant to policies DM1 and EN18 of the Core Strategy (2012).

POLICIES

The following guidance and policies are considered to be relevant to the proposed development.

1. The National Planning Policy Framework (NPPF), (July 2021) - This Framework came into effect on 27th March 2012 and was amended and updated in February 2019. It sets out the Government's planning policies for England and how these are expected to be applied. It defines the Government's requirements for the planning system 'only to the extent that it is relevant, proportionate and necessary to do so'. It provides a mechanism through 'which local people and their accountable councils can produce their own distinctive local and neighbourhood plans, which reflect the needs and priorities of their communities'. The Framework has been related to the proposed development, with particular emphasis given to the following:

- o Chapter 8: Promoting healthy and safe communities.
- o Chapter 12: Achieving well-designed places.

2. The Manchester Core Strategy Development Plan Document 2012-2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012 - It is the key document in Manchester's Local Development Framework. The Core Strategy replaces significant elements of the Unitary Development Plan (UDP) as the document that sets out the long-term strategic planning policies for Manchester's future development. A number of UDP policies have been saved until replaced by further development plan documents to accompany the Core Strategy. Planning applications in Manchester must be decided in accordance with the Core Strategy, saved UDP policies and other Local Development Documents.'

The following policies are relevant to the proposed development:

- o Policy DM 1 (Development Management)
- o Policy SP1 (Spatial Principles)
- o Policy EN1 (Design Principles and Strategic Character Areas)
- o Policy EN19 (Waste)
- o Policy EN18 (Contaminated Land)
- o Policy T2 (Accessible areas of opportunity and need)

3. Unitary Development Plan (UDP) - The UDP has been superseded by the Core Strategy Development Plan.

- o Saved Policy DC1 (Residential Extensions) is considered relevant.

4. Guide to Development in Manchester Supplementary Planning Document and Planning Guidance, Adopted April 2007 - The document aims to help to develop and enhance a unique and positive sense of place within Manchester and its neighbourhoods. It advises that high quality design is a vital attribute of successful neighbourhoods.

The following paragraphs are of particular relevance:

- i. Section 2 Design - Discusses the importance of the design of new development in relation to surrounding neighbourhoods and the character of its streets, in terms of its layout, design, scale, massing and orientation of its buildings to achieve a unified urban form to enliven the neighbourhood and its sustainability. The density of the development should also be informed by the characteristics of an area and the specific circumstances of the proposals. It is considered that these design principles have been satisfactorily incorporated into the development.
- ii. Section 8 Community Safety and Crime Prevention - Relates the importance of creating safe environments through the incorporation of informal surveillance and crime prevention measures as an integral part of new development. These objectives have been related to the assessment of the proposed design and layout of the development.

ISSUES

Principle

The principle of the proposal to create additional living accommodation is considered acceptable. Notwithstanding this, consideration must be given to proposal's impact upon existing levels of residential and visual amenity.

Residential and visual amenity

Impact of works (single storey side extension) - In light of the existing context and the revised plans, and due to the fact that the revised proposal has been scaled down to solely relate to a single storey side extension, and the proposal would be contained within the curtilage of the application site, it is considered that the revised proposal would be acceptable in this location in this instance as it would not unduly impact on residential or visual amenity as there are no overbearing, overshadowing or loss of privacy impacts.

Impact of works (Design and appearance) - It is not considered that the revised proposal would unduly harm the character of the building or the general area, and it would be consistent with other similar development along the streetscene. It is also intended to use materials which are present in the streetscene, which is considered acceptable in design terms. However, a materials condition has been attached to ensure that the materials are adhered to.

Impact of works (Waste management) - The existing arrangement would be affected. The existing amenity space with gated access along the side elevation for the most part will be lost to accommodate the proposed extension. However, a modest amenity space with gated access would be retained to store wheeled bins, to the side gable of the proposed extension.

Impact of works (Car parking) - The existing arrangement would be unaffected.

Conclusion - For the reasons outlined above, and subject to planning conditions, it is considered that the revised proposed development responds positively to The National Planning Policy Framework (July 2021); policies SP1, DM1, EN1, T2, and EN19 of The Manchester Core Strategy Development Plan Document (July 2012); saved policy DC1 of the Unitary Development Plan (1995); and the Guide to Development in Manchester Supplementary Planning Document and Planning Guidance (April 2007).

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. In this instance, the local planning authority raised issues to with the agent regarding the roof configuration, and revisions to the initially submitted plans were negotiated, and revised plans subsequently submitted, (dated 01/08/2022). Appropriate conditions have been attached to the approval. The proposal was assessed with regards to policies outlined in the National Planning Policy Framework, Unitary Development Plan saved policies, Local Development Framework Core Strategy Development Plan and other material considerations.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

- o Householder Application for Planning Permission for works or extension to a dwelling form, received by the City Council as the Local Planning Authority on 26 May 2022.
- o Location plan with application site edge in red; received by the city council as the local planning authority on 26 May 2022.
- o Existing FLOOR PLANS AND ELEVATIONS, AND SITE LOCATION PLAN, Drawing ref 2022/GM/EXISTING/Rev B, received by the city council as the local planning authority on 01 August 2022.
- o Proposed FLOOR PLANS AND ELEVATIONS, AND SITE LOCATION PLAN, Drawing ref 2022/GM/PROPOSED/Rev F, received by the city council as the local planning authority on 23 August 2022.

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Manchester Core Strategy (2012).

3) The external facing brickwork to be used on the extension hereby permitted shall match those of the original dwellinghouse in terms of type, colour, texture, scale, pointing and coursing and as stated on the application form and approved drawings. The proposed render shall be white in colour in accordance with the detail in Photo 4 on plan ref: 2022/GM/PROPOSED/Rev F, and information on the submitted application form.

Reason - In the interests of the character and appearance of the dwellinghouse and surrounding area, pursuant to policy DC1 of the saved Unitary Development Plan for the City of Manchester, and policy DM1 of the Manchester Core Strategy (2012) .

4) Prior to the commencement of development appropriate and comprehensive construction designs for the installation of a proprietary gas membrane, in order to alleviate any possibility of landfill gas ingress to the building, shall be submitted for approval to the City Council, as Local Planning Authority. The approved details shall then be implemented as part of the development. Any further development must not compromise any existing remedial measures previously installed at the site as part of Planning Permission 103550/FO/2013/N2. Upon completion of the works, a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority, to ensure that the existing remedial measures have not been compromised.

Reason -The existing development has had remedial measures installed as part of Planning Permission 103550/FO/2013/N2. The current works shall not compromise the protection afforded by these earlier measures. Pursuant to policies DM1 and EN18 of the Core Strategy (2012).

5) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification) no windows or doors shall be inserted into the elevations of the development hereby approved other than those shown on: Proposed FLOOR PLANS AND ELEVATIONS, AND SITE LOCATION PLAN, Drawing ref 2022/GM/PROPOSED/Rev F, received by the city council as the local planning authority on 23 August 2022.

Reason - In the interests of residential amenity pursuant to policy SP1 and DM1 Core Strategy for the City of Manchester.

6) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) (or any order revoking and re-enacting that Order with or without modification) no part of the development shall be used for any purpose other than the purpose(s) of Class C3(a) of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended) (or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the exceptional circumstances of a proliferation of HMO's restricting housing choice and adversely affecting sustainability and in the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through provision of accommodation that is suitable for people living as families pursuant to policy 7.4 of the Guide to Development in Manchester: Supplementary Planning Document and Planning Guidance, the National Planning Policy Framework and policies SP1 and DM1 of the Manchester Core Strategy.

Informative

1) Construction/demolition works shall be confined to the following:

Monday - Friday: 7.30am - 6pm

Saturday: 8.30am - 2pm

Sunday / Bank holidays: No work
