Part 1 – Particulars of the application/development

Proposal: Change of use of dwellinghouse (Class C3) to house in multiple occupation (Class C4)

Location: 80 Braemar Road, Manchester, M14 6PG

Date of application: 20 June 2022

Application number: 133537/FO/2022

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Refused** in accordance with the application and plans submitted for the reason(s) listed below.

Article 35 Declaration

Officers advised the applicant, that the development could not be supported as the change of use would involve the loss of accommodation suitable for family occupation. Furthermore, the applicant had not demonstrated that the continued use of the property and Class C3 dwellinghouse was no longer viable. The applicant was advised that the principle of the development was not acceptable and that planning permission would be refused. No further discussion was undertaken.

Reason(s) for decision

1) The proposed development would result in the loss of quality residential accommodation, which would reduce the supply and availability of family housing. The development would thereby fail to positively respond to an identified housing need and thereby undermine the formation of cohesive and sustainable neighbourhoods where people would choose to live. The development would thereby be contrary to policies SP1, H1, H6 and DM1 of the Core Strategy for the City of Manchester.

2) The proposed development would result in an over intensive use of the application dwellinghouse and result in a consequential increase in the levels of noise and

disturbance and activity through its occupation as a house in multiple occupation (HMO) with limited usable amenity space. The occupation of the dwellinghouse as an HMO would undermine the formation of sustainable communities, have a detrimental impact upon the amenity of neighbouring residents and thereby be contrary to policies H11, DM1 and SP1 of the Core Strategy for the City of Manchester.
