Details of the pre-application advice received

With regards to the signage you show located at the left side of the shop front, this is the type of design and sizing that would likely be supported by the Council should an application be submitted for advertisement consent assuming it affixed closely to the wall and not projecting from the elevation i.e. affixed a frame/box, appearing bulky.

With regards to the signage shown at the right side of the shop front, I must refer you to my previous advice that the proposed signage be sized to fit the existing fascia board highlighted in red on the attached photo Dream House DIY 2. This, following the removal of the timber frame to which the previous signage was affixed, shown in the photos attached to your previous email.

However, I must reiterate, this advice does not constitute express consent and an application for advertisement consent is still required for both fascia signs. It is offence to display advertisements without express consent from the Council having first been granted.

An application for advertisement consent can be submitted by visiting the following link <https://www.planningportal.co.uk/applications> and completing the steps required to begin the application process.

Separately, I would be grateful if you could secure the removal of all other remaining timber affixed to the principal elevation of the property, including on the Levenshulme Post Office sign shown in the attached photo Levenshulme Post Office Sign.

I attempted to call you on the number contained in your signature and left a message with your colleague to call back at your earliest convenience. If you wish to discuss this over the phone, please don't hesitate to contact me on the number provided below.
