EXTERIOR WALL

Site plan showing a residential property with a 1:12 ramp gradient. The plan includes a large grassy area, a paved driveway, a timber gate, a manhole, a level flagged patio, and a paved walkway. Dimensions are provided for various areas and features. Section lines A-A, B-B, and C-C are indicated. Details A-A and B-B show cross-sections of the ramp and the timber gate respectively.

Key features and dimensions:

- Overall Dimensions:** 10750 (width) x 3000 (depth).
- Grass Area:** 3760 (width) x 1200 (depth).
- Timber gate:** 1200 (width) x 2000 (depth).
- Manhole:** 1200 (width) x 2000 (depth).
- Level flagged patio:** 3000 (width) x 3000 (depth).
- Paved walkway:** 900 (width) x 900 (depth).
- Section Lines:** A-A, B-B, C-C.
- Details:**
 - DETAIL A-A:** Shows a cross-section of the ramp with a 1:12 gradient.
 - DETAIL B-B:** Shows a cross-section of the timber gate.

SCHEDULE OF PROPOSED WORKS:

- Form bermac slope rising up to rear gate and existing patio level.
- Create 3x5m level flagged patio area at rear of property.
- Raise manhole into patio.
- Install 1:12 gradient ramp up to patio area.
