[Q & A's](#)

A high-quality, well designed LED wall washer in sturdy aluminium construction with a glass diffuser. Built with an integral LED driver, so a simple mains supply is required and up to ten lights can be connected to a single supply.

This fitting can be used in a variety of commercial and domestic applications and is suited for installation on walls, soffit or ground. An IP65 rating makes this fitting suitable for outdoor use and perfect for the side of offices or shop fronts to light up your facade.

With the ability to tilt the angle and connect the runs by using the connecting cable you can easily light up the front of your building.

Complete with fixing brackets and integral CCT LEDs, offering a choice of warm 3000°k or 4000°k via an external push button.

54,000 hour extended LED life. 900mA driver for 220-240v supply. Class 1

60cm - 18 watts 1570 lumens

120cm - 34 watts 3100 lumens

Photometric data is available - please enquire.

Be sure to add the input and connecting leads needed for your installation.

Question

SUBMIT QUESTION

Please can you let me know the angle of the lighting spread?

The beam angle is 120°. The positioning of the optics gives a wider distribution.

Availability: Typically dispatched in 4-7 days 

We offer free delivery on orders over £50 to most UK Mainland Addresses
