Dear Sir John,

PROPOSED UPGRADE TO EXISTING RADIO BASE STATION INSTALLATION AT CTIL_12596529, YORK HOUSE, YORK STREET, MANCHESTER, M2 3BB, NGR E: 384125 N: 398212

Cornerstone is the UK's leading mobile infrastructure services company. We acquire, manage and own over 20,000 sites and are committed to enabling best in class mobile connectivity for over half of all the country's mobile customers. We oversee works on behalf of telecommunications providers and wherever possible aim to:

- promote shared infrastructure
- maximise opportunities to consolidate the number of base stations
- significantly reduce the environmental impact of network development

Cornerstone is in the process of progressing suitable sites in the Manchester area for radio base stations to maintain and improve existing levels of service provision. The purpose of this letter is to provide you with information on the proposal and the opportunity for you to seek further information should you wish to do so.

As part of Cornerstone's continued network improvement program there is a specific requirement for an upgrade to the existing radio base station at this location to provide enhanced 2G, 3G and 4G coverage and capacity, and new 5G coverage ensuring that this area of Manchester has access to the latest technologies.

The proposal, which we feel is the best solution to serve our customers in the local community, will include: the removal of 6 no existing antennas, to be replaced by 6 no proposed antennas of similar size and appearance on same steelwork. Proposed 6 no antennas to be mounted on proposed wall mounted support poles. Proposed 2 no GPS modules mounted on the existing antenna support poles. Proposed 24 no RRUs to be mounted on proposed pad mounted

In the first instance, all correspondence should be directed to the agent.

Cornerstone Planning Consultation Letter to Schools V.2 – 15/04/2021

framework on roof. Proposed 6 no RRUs to be mounted on existing RRU steelwork. Proposed 6 no RRUs to be mounted on new pole mounted on existing steelwork. Removal of 12 no existing RRUs at **YORK HOUSE, YORK STREET, MANCHESTER, M2 3BB, NGR E: 384125 N: 398212**. This is because the operators are proposing to upgrade their existing installation to ensure the latest high quality, reliable, secure communications technology is able to be provided from this location. The amendments to the existing scheme are essential in order that customers' handheld devices continue to operate for the purposes in which they have become accustomed, accessible wherever they are whether that be indoors or outside.

All Cornerstone installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation. A certificate of ICNIRP compliance will be included within the planning submission. In fact, because of the very low power utilised by telecommunications sites the emissions will be many times lower than the ICNIRP threshold.

We would welcome your views (within 14 days of the date of this letter) before we finalise the proposal and submit the planning application to the Local Planning Authority.

Should you have any queries regarding this matter, please do not hesitate to contact me (quoting cell number CTIL_12596529)

Yours faithfully,

Matthew Hubbard | Acquisition Surveyor
